About This Training Guide

TRAINING GUIDE DESCRIPTION

This training guide provides AFIS users with an overview of the available budgetary control functions that are used to create, manage, and maintain approved budgets. The budget information stored in AFIS can be used to limit and/or track spending.

TRAINING GUIDE OBJECTIVES

In this training guide, you will:

- Review the navigation features in AFIS
- Review the tables and controls used to manage budgets
- Identify the process of maintaining appropriation budgets
- Identify the process of maintaining department operating budgets
- Identify the process of maintaining decentralized revenue budgets
- Identify the process of maintaining cost structure expenditure budgets
- Identify the process of maintaining grant fund reimbursement budgets

TERMINOLOGY

The terms listed in Table 1 below are used throughout this training guide.

Table 1: Terminology

Term	Description
Allotment	An additional budget level specifying a time component to a combination of Chart of Accounts elements defined as a budget line.
Budget Amounts	'Buckets' used system-wide to track and record different kinds of activities against budget lines.
Budget Controlling	Rules put in place that issue messages to end users when a rule is broken.
Budget Document	Used to create new or update existing budget lines.
Budget Inquiry Page	Allows users to view budget lines and their current amounts on a particular Budget Level.
Budget Level	A layer of a budget structure defined by one or more Chart of Accounts elements.
Budget Line	An individual record in a Budget Level defined by a combination of Chart of Accounts elements.
Budget Structure	Describes the framework of a budget, determining the type of budget being tracked: expense, revenue, or reimbursable.
Constraints	Budget restrictions that control accounting documents.
Event Types	Identifies and records the type of financial activity for an accounting line of a document.

Term	Description
Guidelines	Budget restrictions that control budgeting documents.

LIST OF ACRONYMS

Table 2 lists the acronyms used in this training guide.

Table 2: Acronyms

Acronym	Definition
BCADM	Budget Control Administration
BFY	Budget Fiscal Year
BUDCON	Budget Control
BUDLCON	Budget Level Control
BUDTAM	Budget Tracking Amounts
COA	Chart of Accounts
FY	Fiscal Year

1. Navigation Refresher

Learning Objectives

In this lesson, you will:

- Review the basic access and navigation of a reference table
- Review the basic access and navigation of documents using the Document Catalog
- Review the navigation tools and searching records within a query

Lesson Overview

As with any software, it is important that users understand how to navigate through various menus and features in order to complete tasks efficiently and accurately. AFIS uses a Web interface to display the types of application pages used to process financial information. This lesson reviews the navigation of AFIS as it pertains to Budgetary Control by looking at reference tables, documents and queries that are used throughout this training guide. Understanding how to use these three types of pages is important, because it makes it easier for users to search for a particular type of page and navigate between them.

1.1. Navigation Review: Reference Table

Reference tables are used to store information within the system. The information in some of these reference tables can be created and modified by anyone with the required security permissions; others are system-maintained and updated by the system through document updates or offline processes. All reference tables can be accessed through Page Search or Jump to command at the top of the screen. This example uses the Budget Structure (BUDST) reference table.

ACTIVITY 1.1

Navigate to the Budget Structure Reference Table

Scenario

You want to review the navigation features in AFIS. You will use Page Search to locate the Budget Structure (BUDST) reference table.

Setup

- ✓ User is logged in to the AFIS home page.

Steps

A. Navigate using Page Search.

1. In the Secondary Navigation Panel, click **Search**.
2. Click **Page Search**.
3. In the **Page Code** field, enter **BUDST**.
4. Click **Browse**.
5. In the list of tables that appears below the search fields, click **Budget Structure**.

The screenshot shows the AFIS application interface. The top navigation bar includes the AFIS logo, a 'Jump to' dropdown menu with 'BYSTFFSL' selected, and links for 'Go', 'Home', 'Personalize', 'Accessibility', 'App Help', 'About', and a power icon. Below the navigation bar, the 'Page Search' section is active. It contains search fields for 'Category', 'Page Type', 'Description', and 'Page Code'. The 'Page Code' field contains the text 'BUDST*'. Below the search fields are 'Browse' and 'Clear' buttons. A table of search results is displayed, with columns 'Description' and 'Page Code'. The first result is 'Budget Structure' with page code 'BUDST', which is highlighted with a checkmark. The second result is 'Budget Structure Summary' with page code 'BUDSTS'. At the bottom of the table are 'First', 'Prev', 'Next', and 'Last' navigation links.

Description	Page Code
✓ Budget Structure	BUDST
Budget Structure Summary	BUDSTS

B. Navigate using the Search tool within the table.

1. In the Budget Structure table, click **Search**.
2. In the Search pop up window, in the **Structure ID** field, enter **93**.
3. Click **Ok**.

4. The Budget Structure table displays the details for Budget Structure 93.

Budget Structure

Structure ID : 93
 Structure Name : Department Expense - Div

Level ID	Level Short Name	COA Elements	Presence Optional
1	93 Level 1	BFY,Fund,Department,Appropriation Unit	No
2	93 Level 2	BFY,Fund,Department,Appropriation Unit,Division	No
3	93 Level 3	BFY,Fund,Department,Appropriation Unit,Division,Object Class	No

Links at the bottom: [Budget Level Update](#), [Budget Level Control](#), [Budget Structure Update](#), [Required Budget](#), [Allotment Option](#), [Budget Structure Summary](#)

- Observe the information displayed for the Budget Structure.
- Observe the levels that make up the Budget Structure. Budget Structure 93 has three levels.
- Observe the links at the bottom of the page that allow users to navigate to other tables to view or edit the data for the Budget Structure.

C. Use the Budget Structure Summary table to view all available Budget Structures.

- At the bottom of the page, click the **Budget Structure Summary** link.
- On the Budget Structure Summary page, click on the **Last** link.
- Observe the **Budget Structures** in the grid.

Budget Structure Summary

Structure ID	Structure Name	Central/Decentral	Active	Effective From	Effective To

Budget Level Update Budget Level Control

Budget Structure Update

Required Budget Allotment Option Budget Structure Summary

2. Click the **Next** link below the grid. Levels 6 and 7 are displayed.
3. Click **Home** to return to the Home Page.

1.2. Navigation Review: Document

The information stored in reference tables gets updated by documents. Some documents update the information on multiple tables. The Document Catalog is used to create documents and to search for documents based on Code, Department, Unit, or ID. It can also be searched by User Information using User ID (created by) and Date (created on), or by Document State using Function, Phase or Status fields. This example uses the Appropriation and Allotment Budget (BGA90) and Department Expense – Division (BGE93) documents.

ACTIVITY 1.2

Navigate to Budget Documents

Scenario

You want to review the navigation features in AFIS. You will use the Document Catalog to find budget documents for Appropriations and Allotment (BGA90) and Department Expense – Division (BGE93).

Setup

- ✓ User is logged in to the AFIS home page.

Steps

A. Navigate using the Document Catalog.

1. In the Secondary Navigation Panel, click **Search**.
2. Click **Document Catalog**.
3. In the **Code** field, enter **BGA90**.
4. In the **Dept.** field, enter the data from *your student data card*.
5. Click **Browse**. The grid displays all BGA90 documents for that department in the system.
6. In the list of documents, in the first row, click the **ID** for the document.

Menu

B. Explore the BGA90 document.

1. Observe the information in the document Header section.
2. Click on the **Level 1** section to expand that section.
3. Observe the line at the top of the section that summarizes the activity on the line. The BGA90 document can increase or decrease a budget by an amount specified in the Dollar Amount column.

4. Observe the fields in the Level 1 section.

The screenshot displays the AFIS Budgetary Control interface. At the top, the header includes the AFIS logo, a navigation bar with links like 'Home', 'Personalize', 'Accessibility', 'App Help', and 'About', and a status bar showing 'Welcome, Student 7' and 'Procurement Budgeting Accounts Receivable Accounts Payable'. Below the header, a sub-header indicates 'Appropriation and Allotment Budget Document(BGA90)' with details: 'Dept: 107 ID: STU 7 1.2A Ver.: 1 Function: New Phase: Final' and 'Modified by Training, 11/25/2014'.

The main section is titled 'Level 1: Appropriation and Allotment' with 'Total Lines: 1'. It contains a table with the following data:

Budget FY	Fund Group	Department	Appr Category	Dollar Amount	Increase/Decrease	Event Type
2015	8000	107	1070000	\$0.00	Increase	BG01

Below the table, it shows 'From 1 to 1 Total: 1' and navigation buttons: 'First', 'Previous', 'Next', 'Last'.

The 'Appropriation and Allotment Level' section is expanded, showing a form with the following fields:

- Action: New
- Event Type: BG01
- Name: Activity 1.2
- Start Date: 07/01/2013
- End Date: 06/30/2014
- Dollar Amount: \$0.00
- Increase/Decrease: Increase
- Reservation Type: (empty)
- Budget FY: 2015
- Fiscal Year: 2015
- Period: 5
- Fund Group: 8000
- Department: 107
- Appr Category: 1070000

At the bottom, there are sections for 'Appropriation Controls' (Total Lines: 0) and 'Allotments' (Total Lines: 5). The interface also includes a footer with buttons: 'Edit', 'Copy', 'Copy Forward', 'Discard', 'Print', 'Processing', 'Workflow', 'File', and 'Close'.

5. Click the **Appropriation Controls** section to expand that section.
 6. If there were any controls defined, they would appear in this section.
 7. Click the **Allotments** section to expand that section.
 8. If there were any allotments defined, they would appear in this section.
 9. Click **Close**.
- C. Locate a BGE93 document.
1. In the Document Catalog, in the **Code** field, enter **BGE93**.
 2. In the **Dept.** field, enter the data from *your student data card*, if necessary.
 3. Click **Browse**. The grid displays all BGE93 documents for that department in the system.

- In the list of documents, in the first row, click the **ID** for the document.

- Explore the BGE93 document.

- Observe the sections of the document at the bottom of the page. The BGE93 document has a Header and 3 levels. Each level has two sections, one for budget activity and one for controls.

- Click the **Dept Expense 93: Level 1** section to expand that section.

- Observe the line at the top of the section that shows the activity for that level.

1.3. Navigation Review: Query Page

The information that documents update in tables can be looked up by performing a query and certain tables are designed for this purpose. For example, Budget Structure levels can be researched using the Budget Structure level (BQ90LV1) based query pages. One way to quickly access a query page is to type the page code into the Jump to box in the Primary Navigation Panel.

ACTIVITY 1.3

Navigate to Budget Structure Level Query Pages

Scenario

You want to review the navigation features in AFIS. You will use the Jump to command to access the Budget Structure level query pages for Budget Structure 90 and Budget Structure 93.

Setup

- ✓ User is logged in to the AFIS home page.

Steps

A. Navigate using the Jump to command.

1. In the Primary Navigation Panel, in the **Jump to** box, enter **BQ90LV1**.
2. Click **Go**. The Budget Structure query page for Appropriations and Allotments opens along with a Search pop up window.
3. In the Search window, in the **Dept** field, enter the data from **your student data card**.
4. Click **Ok**.

The screenshot displays the AFIS Budget Structure Level Query page. The top navigation bar includes the AFIS logo and links for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. The left sidebar shows the Training - Financial section with options for Message Center, Search, Document Catalog, Report Search, History, Favorites, and Administration. The main content area is titled 'Appropriation and Allotment' and features a table with the following data:

BFY	Fund Group	Dept	Appr Cat	Current Budget	Encumbered	Actual Expenses	Unobligated
✓ 2015	8000	107	1070000	\$0.00	\$0.00	\$0.00	\$0.00

Below the table, there is a 'Search' section with a 'Budget Actuals' dropdown. The 'Budget Actuals' section lists various expense categories and their amounts:

- Purchase Reservations: \$0.00
- Pre-Encumbered: \$0.00
- Encumbered: \$0.00
- Accrued Expenses: \$0.00
- Cash Expenses: \$0.00
- Actual Expenses: \$0.00
- Uncommitted: \$0.00
- Unobligated: \$0.00
- Unexpended Cash: \$0.00
- Unexpended Accrued: \$0.00

At the bottom, there are sections for 'Budgeted Amounts' and 'General Information', both of which are currently collapsed. A 'Top' link is also present.

B. Explore the Budget Structure level query page.

1. In the query page, observe the lines in the grid at the top of the page display the budget information by BFY, Fund, Dept, and Appr Cat.
2. Observe the dollar amounts for Current Budget, Encumbered, Actual Expenses, and Unobligated for each line in the grid.
3. Observe the sections below the grid for Budget Actuals, Budgeted Amounts, and General Information.
4. Click the section **Budgeted Amounts** to expand it.

- Click the section **General Information** to expand it.

Budgeted Amounts

Next Level

10. Observe the lines in the grid at the top of the page display the same columns as Level 3, except that Obj Class is not shown at this level.
11. Click the **Previous Level** link. The Dept Expense 93: Level1 query page is displayed.

The screenshot shows the AFIS Budgetary Control interface. The main content area displays the 'Dept Expense 93: Level 1' query page. At the top, there is a navigation bar with links for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. Below this, a table shows the following data:

RFY	Fund	Department	Appr Unit	Current Budget	Encumbered	Actual Expenses	Unobligated
2015	9007	107	1070000	\$1,000,000.00	\$16,399.99	\$7,060.00	\$976,540.01

Below the table, there are sections for 'Budget Actuals' and 'Budgeted Amounts'. The 'Budget Actuals' section includes the following data:

Budget Actuals	Uncommitted
Purchase Reservations: \$0.00	\$976,540.01
Pre-Encumbered: \$0.00	Unobligated: \$976,540.01
Encumbered: \$16,399.99	Unexpended Cash: \$999,470.00
Accrued Expenses: \$6,530.00	Unexpended Accrued: \$992,940.00
Cash Expenses: \$530.00	
Actual Expenses: \$7,060.00	

The 'Budgeted Amounts' section is currently empty. At the bottom of the page, there are links for 'Top', 'Modified Budget Line Controls', and 'Next Level'.

12. Observe the lines in the grid at the top of the page display the same columns as Level 2, except that Div is not shown at this level.
13. Click **Home** to return to the Home Page.

Lesson Summary

This lesson reviewed the basic navigation tools and methods that will be used throughout this training guide. The Jump to feature can be used to go right to a certain page or table. The Page Search and Document Catalog can also be used to search for specific table or document within the system.

2. Budgetary Overview

Learning Objectives

In this lesson, you will:

- Review the budget control lifecycle
- Examine the budget controls
- Identify the available budget structures
- Review the available budget documents
- Review the available budget query pages

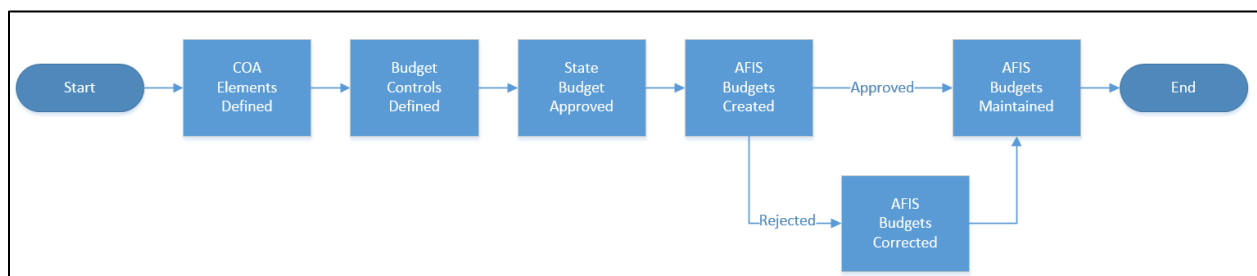

Lesson Overview

In AFIS, budgetary control encompasses several functions and features: budget control lifecycle, budget controls, budget structures, budget documents, and budget queries. Budget controls are rules that are put in place to validate activity on budget and accounting documents and enforce expenditure controls. Budget structures determine the type of budget and are made up of increasing levels of Chart of Accounts detail. Budgets lines are individual records within a specific budget level that are entered and modified in AFIS using budget documents. Budget queries are pages that display detailed information for each budget, level, and line as well as an audit trail of budget updates.

2.1. Budget Control Lifecycle

The Chart of Accounts (COA) elements must be defined in AFIS before budgets can be created. These COA elements are used when creating budgets and processing financial transactions. Additionally, all guidelines and constraints must be established on budget control tables. Once the State budget is approved, associated budgets can be created and maintained in AFIS through the use of budget documents. Figure 1 below represents the budget control lifecycle.

Figure 1: Budget Control Lifecycle Overview

2.2. Budgetary Controls

AFIS uses guidelines and constraints to control budgets and accounting transactions. Guidelines are budget restrictions that control budgeting documents. Constraints are budget controls that control accounting documents. The guidelines and constraints are defined to enforce controls for Appropriation, Operating Expense, and Grant/Project budgets. Constraints are always checked when a budget line is updated, which means that a constraint error can be issued on an accounting or a budgeting document. Guidelines are only checked when a budget document updates a budget line.

AFIS provides the ability to establish a range of budget control from ones that apply system wide to an individual control that applies to a single budget line only.

The highest level of control is at the System Wide level, which is set on the Budget Control (BUDCON) page. Note that the Budget Control Administration (BCADM) page is for configuring a control, whereas the BUDCON table is for managing the use of a control within the application.

Controls enabled on BUDCON will apply to all budget structures of the same type (expense or revenue), budget levels and budget lines unless specified otherwise at a lower control level.

Budget Control Administration

Online definition of a control is performed on the Budget Control Administration (BCADM) table. Many budget controls are delivered and can be viewed on this table. Budget controls use formulas that compare values to controlled amounts. An example of a control formula is, “Unobligated ≥ 0 ” which returns an error of specified severity if the value of Unobligated is negative.

The screenshot displays the AFIS Budget Control Administration (BCADM) interface. The top navigation bar includes links for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. The left sidebar contains a 'Training - Financial' menu with options like Message Center, Search, Document Catalog, History, Favorites, and Administration. The main content area shows a table of budget controls with columns: Control ID, Control Name, Left Hand Side, Operator, and Right Hand Side. Below the table, there is a detailed view of a selected control (Control ID: 1) with fields for Control Name, Control Description, Control Formula, Formula Type, Expense/Revenue, Left Hand Side, Operator, Right Hand Side, Bucket Triggers, Error Code, and checkboxes for Advanced Budget Control and Needs Initialization.

Control ID	Control Name	Left Hand Side	Operator	Right Hand Side
1	Available To Commit Only	B16	\geq	0
2	Available To Commit with Budgeted Revenue	B16:B20+	\geq	0
3	Available To Commit with Actual Revenue	B16:B27+	\geq	0
4	Available To Commit w. Greater of Budgeted/Actual Revenue	B16:B27:B20++	\geq	0
5	Available To Obligate Only	B17	\geq	0
6	Available To Obligate with Budgeted Revenue	B17:B20+	\geq	0
7	Available To Obligate with Actual Revenue	B17:B27+	\geq	0
8	Available To Obligate w. Greater of Budgeted/Actual Revenue	B17:B27:B20++	\geq	0
9	Balanced Budget - Obligated Funds Only with Budgeted Revenue	B13:B14+B15+	\leq	B20
10	Balanced Budget - Obligated Funds Only with Actual Revenue	B13:B14+B15+	\leq	B27

Below the table, the detailed view for Control ID: 1 is shown:

- *Control ID: 1
- *Control Name: Available To Commit Only
- Control Description: Constraint limits Pre-Encumbrances to the Uncommitted amount only.
- *Control Formula: Uncommitted ≥ 0
- *Formula Type: Constraint
- *Expense/Revenue: Expense Only
- *Left Hand Side: B16
- *Operator: \geq
- *Right Hand Side: 0
- Bucket Triggers: 16
- *Error Code: A612
- Advanced Budget Control: ☐
- Needs Initialization: ☐

Below is an extract of the BCADM page and the activated Constraints and Guidelines to be used in AFIS. These controls will be further refined at lower control points such as BUDLCON. The Allow 'xxxx' fields indicate that the default control of 'No Action' may be overridden at these other control points.

ID	Constraint Name	Formula	Type	Default Violation	Allow Reject	Allow Override	Allow Warning	Allow No Action	Include Allotments
1	Available To Commit Only	Uncommitted ≥ 0	Constraint	No Action	Yes	Yes	Yes	Yes	No
5	Available To Obligate Only	Unobligated ≥ 0	Constraint	No Action	Yes	Yes	Yes	Yes	No
18	Current Budget - Total Expenditures ≥ 0	Unexpended Accrued ≥ 0	Constraint	No Action	Yes	Yes	Yes	Yes	Yes
24	Current Budget 1	Current Budget \geq Sum Child Current Budgets	Guideline	No Action	Yes	No	No	No	No
26	Current Budget Amt: Parent Budget = Child Budget	Current Budget = Sum Child Current Budgets	Guideline	No Action	Yes	No	No	No	No

ID	Constraint Name	Formula	Type	Default Violation	Allow Reject	Allow Override	Allow Warning	Allow No Action	Include Allotments
27	Current Revenue Budget	Current Revenue Budget = Sum Child Current Revenue Budgets	Guideline	No Action	Yes	No	No	No	No
29	Reimbursement Constraint #3	((Awarded + Revenue Credits) - (Cash Exp. + Accr Exp + Chrg + BES) >= 0	Constraint	No Action	Yes	Yes	Yes	Yes	No
60	Available To Commit Only – Department Budget	Uncommitted >= 0	Constraint	No Action	Yes	Yes	Yes	Yes	No
61	Available To Obligate Only – Department Budget	Unobligated >= 0	Constraint	No Action	Yes	Yes	Yes	Yes	No
62	Available To Obligate Including Charges Only	Unobligated >= 0	Constraint	No Action	Yes	Yes	Yes	Yes	No

Violation Action	What the Violation Action Means
Reject (most restrictive)	Receive an error and the transaction is not allowed to process.
Require override	Receive an error. If an authorized user overrides the error, the transaction is allowed to process; otherwise, the transaction does not process.
Warning	Receive a warning message, but the transaction is allowed to process.
<i>No Action</i> (least restrictive)	The transaction is allowed to process even though the constraint or guideline has been violated.

Budget Control (BUDCON)

The Budget Control (BUDCON) table lists all of the available constraints and guidelines in AFIS. For each record on the BUDCON table, the formula and allowable options can be set system wide. The controls on the BUDCON table have a Control ID that is used to assign that constraint to a budget structure and level. Only authorized users can access the BUDCON page and changes to existing controls are not recommended without proper caution.

The screenshot displays the AFIS Budget Control (BUDCON) interface. The top navigation bar includes the AFIS logo, a 'Jump to' dropdown set to 'BUDCON', and links for 'Go', 'Home', 'Personalize', 'Accessibility', 'App Help', 'About', and a power icon. Below the navigation bar, a sidebar on the left contains links for 'Training - Financial', 'Message Center', 'Search', 'Page Search', 'Document Catalog', 'Report Search', 'History', 'Favorites', and 'Administration'. The main content area is titled 'Budget Control' and features a table of controls.

Control ID	Control Name	Default Violation	Formula Type	Error Code
✓ 1	Available To Commit Only	No Action	Constraint	A612
2	Available To Commit with Budgeted Revenue	Not Selected	Constraint	A613
3	Available To Commit with Actual Revenue	Not Selected	Constraint	A614
4	Available To Commit w. Greater of Budgeted/Actual Revenue	Not Selected	Constraint	A1920
5	Available To Obligate Only	No Action	Constraint	A615

Below the table, there are links for 'First', 'Prev', 'Next', and 'Last'. The detailed view for Control ID 1 is shown below the table. It includes fields for 'Control ID', 'Control Name', 'Control Description', 'Formula Type', and 'Control Formula'. The 'Control Name' is 'Available To Commit Only'. The 'Control Description' is 'Constraint limits Pre-Encumbrances to the Uncommitted amount only.' The 'Formula Type' is 'Constraint'. The 'Control Formula' is 'Uncommitted >= 0'. To the right of these fields, there are checkboxes for 'Default Violation' (set to 'No Action'), 'Allow Reject', 'Allow Override', 'Allow Warning', 'Allow No Action', 'Include Allotments', 'Error Code' (set to 'A612'), 'Advanced Budget Control', and 'Needs Initialization'.

The purpose of BUDCON is to enable those controls that the State plans on using across all Structures and to establish default rules that should apply globally and to define what additional changes may be made to the enabled controls at lower level control points (by structure or individual line).

Budget Level Control (BUDLCON)

The Budget Level Control (BUDLCON) page lists the applied budget controls by budget structure and level. Each control specifies a Control ID which determines the control formula, a Default Violation action, and Allowable action check boxes. Only authorized users can access the BUDLCON page.

The screenshot shows the AFIS Budget Level Control (BUDLCON) page. The top navigation bar includes 'AFIS' logo, 'Jump to: BUDLCON', and links for 'Go', 'Home', 'Personalize', 'Accessibility', 'App Help', and 'About'. The left sidebar contains 'Welcome, Student 7' and a 'Training - Financial' menu with options like 'Message Center', 'Search', 'Document Catalog', 'History', 'Favorites', and 'Administration'. The main content area is titled 'Budget Level Control' and features a table of budget controls.

Structure ID	Level ID	BFY	Control ID	Control Name	Default Violation	Include Allotments
✓ 37	1	9999	1	Available To Commit Only	No Action	No
37	1	9999	5	Available To Obligate Only	Require Override	No
38	1	9999	1	Available To Commit Only	No Action	No
38	1	9999	5	Available To Obligate Only	Require Override	No
39	1	9999	29	Reimbursement Constraint #3	Require Override	No

Below the table, there are navigation links: 'First Prev Next Last'. A configuration form is also present with fields for 'Structure ID', 'Level ID', 'BFY', 'Control ID', 'Default Violation', 'Control Name', and 'Control Formula'. On the right side of the form, there are checkboxes for 'Allow Reject', 'Allow Override', 'Allow Warning', 'Allow No Action', 'Include Allotments', 'Advanced Budget Control', and 'Needs Initialization'.

The configuration entered on the Budget Level Control (BUDLCON) page will apply to all budget lines for the entered budget structure and budget level combination unless specified otherwise at the lower budget line level on a budget document. The BUDLCON addresses control for decentralized budget requirements.

Budget lines without a displayed BFY value (structures 37 - 40) will read the BUDLCON table with a BFY value of 9999. Those budget lines with a BFY value displayed, will read BUDLCON with that BFY whether it is a regular year or multi-year (9999).

The following is an example of BUDLCON for Department Expense Budget Structure 93 (Division) for budget level 3 only. Note that each of the remaining levels 1 and 2 are also configured on BUDLCON.

Structure ID	Level	BFY	Control	Control Name	Default Violation	Allow Reject	Allow Override	Allow Warning	Allow No Action	Include Allotments
93	3	2015	1	Available To Commit Only	No Action	No	No	No	Yes	No
93	3	2015	5	Available To Obligate Only	No Action	No	No	No	Yes	No

Structure ID	Level	BFY	Control	Control Name	Default Violation	Allow Reject	Allow Override	Allow Warning	Allow No Action	Include Allotments
93	3	2015	60	Available To Commit Only - Departmental Budgets	No Action	Yes	Yes	Yes	Yes	No
93	3	2015	61	Available To Obligate Only - Departmental Budgets	Require Override	Yes	Yes	Yes	Yes	No
93	3	2015	62	Available To Obligate Including Charges Only	No Action	No	No	No	Yes	No

The Default Violation column indicates whether the control is enabled by default for the Structure ID and Level indicated.

The Allow 'xxx' Columns indicate if the Default Constraint can be changed at a lower level of control. For AFIS, the only lower level control is at the individual Budget Line level on budget documents.

The Include Allotments flag is used to indicate if a control is enabled at the Allotment frequency level. For AFIS, only Accrued and Cash Expense are validated against allotment frequencies.

Budget Document Line Control

The Budget Level Control (BUDLCON) page lists the applied budget controls by budget structure and level. Each control specifies a Control ID which determines the control formula, a Default Violation action, and Allowable action check boxes. Only authorized users can access the BUDLCON page.

AFIS provides the ability for the online creation of a budget control specific to a single budget line that is different than what is established system-wide on BUDCON or by budget level on BUDLCON.

To set a budget line control

1. Click **Header** from the Secondary Navigation Panel.
2. Select the **Load Constraints** action.

29	Reimbursement Constraint #3	No Action		
1	Available To Commit Only	No Action		

From 1 to 7 Total: 7

- From the listing of controls loaded, select the row(s) which need adjusting and set the **Violation Action** to the desired value.

The screenshot shows a window titled "Dept Expense 93: Level 3 Controls" with a subtitle "Total Lines: 7". It contains a table with the following data:

Constraint ID	Name	Violation Action
1	Available To Commit Only	No Action

Below the table, there is a detailed view of the selected control (Constraint ID: 1). It shows the Name as "Available To Commit Only" and the Formula as "Uncommitted >= 0". The Violation Action dropdown menu is open, showing options: "No Action", "Reject", "Require Override", and "Warn". The "No Action" option is currently selected.

- An optional step to reduce informational messages is to use the scissors icon to remove controls that were not adjusted. Doing this does not mean that the controls will not apply to the budget line.

Appropriation Budget Controls

Appropriation budget controls have been established to control the budget amounts available to obligate commit and expend at the Appropriation Category level and by allotment period. Controls established for the amount available to commit includes Pre-Encumbrances whereas controls established for available to obligate do not include Pre-Encumbrances.

Department Operating Expense Budget Controls

Spending documents impact the available department operating budget as well as the appropriation budget. Departments may have the ability to override certain errors returned against a decentralized expense budget structure. There are no controls that necessarily restrict a Department Operating Expense budget from exceeding the related Appropriation budget.

Grants and Project Budget Controls

Grant and Project budget controls have been established to control the budget amounts available to obligate commit and for reimbursement activity. The controls apply to all to grants, programs, and internal jobs that use the Cost structure budget structures.

Revenue Budget Controls

Controls are not currently planned for use on Revenue budgets.

Required Budgets

The Required Budgets (REQBUD) table allows the definition of one or more conditions under which a valid budget line must be found on a given budget structure in order for an accounting transaction (not a budget transaction) to process successfully. The REQBUD table can be used to ensure that a budget structure is required globally.

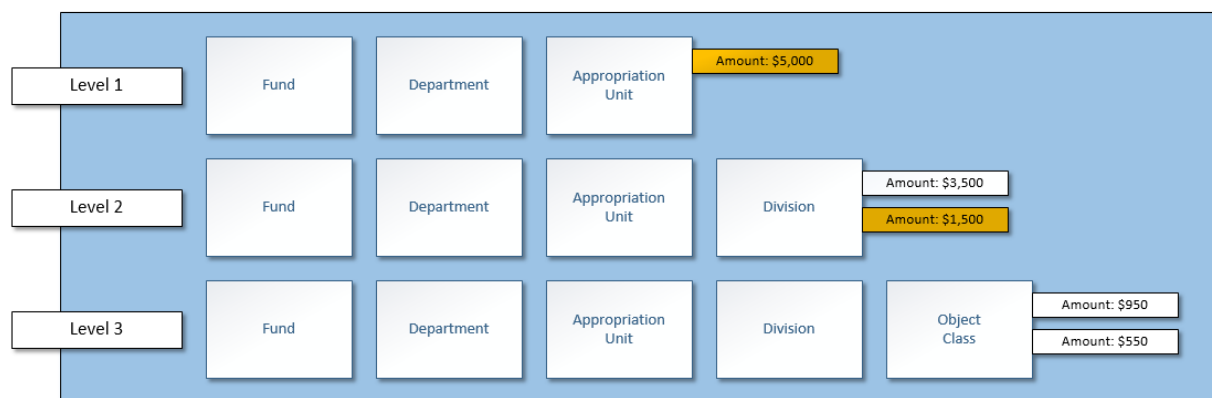

2.3. Budget Structures

In AFIS, a budget structure establishes the budget parameters and system controls for expenditures, revenues, or both. Each budget structure is based on specific combinations of Chart of Accounts (COA) elements.

A budget level is a part of a budget structure. A budget structure must have at least one budget level, although most have more. Each budget level is composed of one or more COA elements grouped together to determine how individual budgets are defined at that level. Budget levels form a strict hierarchy, such that lower budget levels must contain all the COA elements contained in the higher levels and at least one additional COA element.

Each level within the budget structure provides differing levels of detail for its budget lines. Level one at the top provides the least amount of detail (fewest COA elements) and levels two, three, and so on below provide greater detail (with additional COA elements) than the level above. As each level condenses up the budget structure, each level becomes a summary of the lines on the level below. Figure 2 represents an example of budget structure levels.

Figure 2: Budget Structure Overview

Multiple budget structures may be used concurrently to address multiple budget controls required by the State. For example, different budget structures may be used for project accounting versus grants accounting, or for expense versus revenue.

The available budget structures and the levels they contain are outlined below. The levels that are listed as (R) are required when setting up a budget, additional levels provided are optional.

Appropriation/Allotment

The Appropriation/Allotment budget structure is used to maintain the State approved budget.

Budget Structure 90 – Appropriation/Allotment Budget

Level 1 (R) – Fund Group: Dept: Appr Category

Revenue

The Revenue budget structure is used to track revenue, not to limit incoming funds.

Budget Structure 94 – Revenue

Level 1 (R) – Fund: Dept: Revenue Class

Level 2 – Fund: Dept: Revenue Class: Revenue Source

Level 3 – Fund: Dept: Revenue Class: Revenue Source: Dept Revenue Source

Department

Departments can select the operating expense budget structure that aligns most closely to their needs.

Budget Structure 91 – Department Budget Structure – Bureau

Level 1 (R) – Dept: Appr Category: Fund

Level 2 (R) – Dept: Appr Category: Fund: Appr Unit: Division

Level 3 – Dept: Appr Category: Fund: Appr Unit: Division: Bureau

Level 4 – Dept: Appr Category: Fund: Appr Unit: Division: Bureau: Dept Obj Group

Budget Structure 92 – Department Budget Structure – District

Level 1 (R) – Fund: Dept: Appr Unit

Level 2 (R) – Fund: Dept: Appr Unit: Division

Level 3 (R) – Fund: Dept: Appr Unit: Division: District

Level 4 (R) – Fund: Dept: Appr Unit: Division: District: Obj Class

Budget Structure 93 – Department Budget Structure – Division

Level 1 (R) – Fund: Dept: Appr Unit

Level 2 (R) – Fund: Dept: Appr Unit: Division

Level 3 (R) – Fund: Dept: Appr Unit: Division: Obj Class

Budget Structure 95 – Department Budget Structure – Unit

Level 1 (R) – Fund: Dept: Appr Unit

Level 2 (R) – Fund: Dept: Appr Unit: Division

Level 3 – Fund: Dept: Appr Unit: Division: District

Level 4 – Fund: Dept: Appr Unit: Division: District: Bureau

Level 5 – Fund: Dept: Appr Unit: Division: District: Bureau: Section

Level 6 – Fund: Dept: Appr Unit: Division: District: Bureau: Section: Unit

Level 7 – Fund: Dept: Appr Unit: Division: District: Bureau: Section: Unit: Obj Class

Cost Structures – Phase

Cost structures are used when spending is offset or matched by reimbursements. Cost structures can be maintained at the Phase level by combining budget structure 37 and 40.

Budget Structure 37 – Program Phase Revenue and Expense

Level 1 (R) – Dept: Major Program

Level 2 (R) – Dept: Major Program: Program

Level 3 (R) – Dept: Major Program: Program: Phase

Budget Structure 40 – Program Phase Reimbursable

Level 1 (R) – Dept: Major Program: Program: Phase: Fund Profile: Fund Priority

Level 2 (R) – Dept: Major Program: Program: Phase: Fund Profile: Fund Priority: Fund Line

Cost Structures – Period

Cost Structures can be maintained at the Period level by combining budget structure 38 and 39.

Budget Structure 38 – Grant Program Period Revenue and Expense

Level 1 (R) – Dept: Major Program

Level 2 (R) – Dept: Major Program: Program

Level 3 (R) – Dept: Major Program: Program: Program Period

Budget Structure 39 – Grant Program Reimbursable

Level 1 (R) – Dept: Major Program: Program: Program Period: Fund Profile: Fund Priority

Level 2 (R) – Dept: Major Program: Program: Program Period: Fund Profile: Fund Priority: Fund Line

2.4. Budget Documents

The Budget (BG) document type is used to meet all of the various needs in the Budget area. A budget document enables users to create new budget lines as well as to modify, deactivate, reactivate, and delete existing budget lines in a particular budget structure. With the exception of the auto generation feature on the Required Budget table, the budget document is the only way to create new budget lines.

The budget document operates differently from accounting documents in several respects:

- Budget documents contain an Increase/Decrease field that is used in conjunction with a Dollar Amount field to determine how to update a budget line. That dollar amount field cannot be negative, where on accounting documents, negatives as well as positives are generally permitted.
- Budget documents cannot have a Document Function of Modification or Cancellation. Therefore, there will never be a version number of a budget document greater than one. On a budget document line, users enter a 'delta' amount that is used to update the budget line rather than the desired 'final' amount.
- Budget documents post to the Budget Journal only - not the Accounting Journal. Additionally, they do not post to the Budget Journal with posting lines but directly from the budget document lines.
- The accounting and posting lines from accounting documents infer all rollups for the COA entered. Budget document lines and posting lines only contain the COA and rollup values entered.

Each budget structure has a unique document that is used to create budgets within that budget structure. One budget document is used to establish all the levels for a single budget line. Budget documents are also used to increase, decrease, deactivate, reactivate, or delete existing budget lines.

Budget document codes are listed in Table 3 below along with the Budget Structure that they correspond to.

Table 3: Budget Structure Document Codes

Budget Structure	Name	Document Code
90	Appropriation/Allotment Budget	BGA90
91	Department – Bureau	BGE91
92	Department – District	BGE92
93	Department – Division	BGE93
94	Revenue	BGR94
95	Department – Unit	BGE95
37	Program Phase Revenue and Expense	BGPHE
40	Program Phase Reimbursement	BGPHR
38	Program Period Revenue and Expense	BGPDE
39	Program Period Reimbursement	BGPDR

All Budget documents are comprised of a Header section and subsequent Budget Level and Control sections.

Budget Document Header

The Header section of a budget document identifies the Transaction Date, Budget Fiscal Year (BFY), Fiscal Year, Accounting Period, Start Date, and End Date for the document.

Budget Level Sections

Budget lines are maintained on a Budget Level section of the document. Budget Level sections identify the Chart of Accounts elements for each level of control within the budget structure. The number of levels and the COA elements controlled by each level vary for each budget structure. Each budget level allows users to create or modify a budget line with the associated dollar amount of the line.

It is important to note that budget lines can be created with a line amount of \$0. This effectively creates a way to track spending without setting any limitations on the amount that can be spent against a specific budget.

Budget Controls Sections

Each budget level is followed by a Budget Controls section which contains and defines line level controls for lines in a budget. Only authorized users with appropriate security permission are able to access the controls for a budget level.

Allotment Periods

Creating allotment periods is part of establishing budgets. Allotments are required for Appropriation Budgets and Revenue Budgets.

The screenshot displays the AFIS Budgetary Control interface. The top navigation bar includes links for Home, Personalize, Accessibility, App Help, and About. The main header shows the user is 'Student 7' and the current document is 'Appropriation and Allotment Budget Document(BGA90)' for Department 107, ID: STU 7 1.2A, Version 1, Function New, Phase Final, modified by Training on 11/25/2014.

The 'Allotments' section is expanded, showing a table with the following data:

Budget FY	Period	Percentage	Allotment Amount	Increase/Decrease
2015	1	25.00%	\$250,000.00	Increase
2015	2	25.00%	\$250,000.00	Increase
2015	3	25.00%	\$250,000.00	Increase
2015	4	25.00%	\$250,000.00	Increase
2015	5	0.00%	\$0.00	Increase

At the bottom of the table, it indicates 'From 1 to 5 Total: 5' and provides navigation buttons: First, Previous, Next, Last.

The allotment periods for an appropriation are quarterly. Unused allotments are carried forward to the next allotment period increasing the available allotment within the next period. Cash Expenditures are limited to the amount available for the year to date allotments amount.

Using the appropriation allotment example illustrated above note that five allotment lines have been established. The four quarterly allotment lines do not have to be distributed equally at 25%, however they cannot exceed a total of 100%. Allotment Period 5 for appropriation budgets (Period 13 for revenue budgets) must be established at 0% (\$0.00) as an accumulator bucket to accommodate the year end processing. Specifically, appropriation allotment Period 5, or a roll forward period, is used by the application to determine the appropriation amount for the fiscal year end Budget Lapse process.

Budget Rollups

Two buttons located on the budget document are labeled Perform Budget Rollup and Smart Budget Rollup. Both buttons will summarize budget lines above the lowest level where lines have been entered, but the Smart Budget Rollup is the preferred method since it makes it easier to create balanced budget lines and simplifies data entry.

The screenshot displays the 'Dept Expense 93: Level 3' form in the AFIS Budgetary Control interface. The form contains the following fields and values:

- Action: New
- Event Type: BG01
- Name: Activity 1.2C
- Start Date: (empty)
- End Date: (empty)
- Dollar Amount: \$1,000,000.00
- Increase/Decrease: Increase
- Reservation Type: (empty)
- Budget FY: 2015
- Fiscal Year: 2015
- Period: 5
- Fund: 9007
- Department: 107
- Appr Unit: 1070000

At the bottom of the form, there are two buttons: 'Perform Budget Rollup' and 'Smart Budget Rollup'.

The Name and Description fields are not rolled up to higher levels on budget documents when the Perform Budget Rollup or Smart Budget Rollup actions are taken.

The Smart Budget Rollup performs the following when invoked:

1. Performs a save on the entire budget document.
2. Determines if budget lines exist on the document for a level greater than 1.
3. Deletes all budget lines, links, and line level controls above the lowest budget level entered on the document.
4. Saves those deletions.
5. Takes the budget line(s) at the lowest budget level and summarizes those lines on key elements that match the definition of the next upper budget level, retaining unique Event Type and Action values.
6. Inserts and saves summarized lines automatically created. Repeats Steps 5 and 6 with the current summary level for each progressively higher budget levels, until Level 1 is finished.
7. For each parent budget line, at levels higher than the lowest in the document with an Action of New, a lookup is performed to the respective budget level table to see if the line exists. If it exists, the Action is set to Modify. If not, the Action is left as New.
8. Resets all Change Evaluation Tracking fields used by the system to prompt a user that changes made, since the last rollup may require another rollup.

The Performs Budget Rollup performs the following when invoked:

1. Performs a save on the entire budget document.
2. Finds if budget lines exist on the document for a level greater than 1.
3. Takes the budget line(s) at the lowest budget level and summarizes those lines on key elements that match the definition of the next upper budget level, retaining unique Event Type and Action values.
4. Inserts and saves the summarized lines automatically created. Repeats Steps 5 and 6 with the current summary level for each progressively higher budget levels until Level 1 is finished.
5. Resets all Change Evaluation Tracking fields used by the system to prompt a user that changes made since the last rollup may require another rollup.

2.5. Budget Query Pages

Budget query pages exist for every level within each budget structure. Summary query pages exist for the lowest required level and several optional levels on Appropriation, Revenue, and Department Operating budget structures.

Table 4 below lists the budget query pages and summary query pages by budget structure.

Table 4: Budget Structure Query Pages

Budget Structure	Name	Query Pages	Summary Query
90	Appropriation/Allotment Budget	BQ90LV1	ESUM90L1
91	Department – Bureau	BQ91LV1 BQ91LV2 BQ91LV3 BQ91LV4	ESUM91L2
92	Department – District	BQ92LV1 BQ92LV2 BQ92LV3 BQ92LV4	ESUM92L4
93	Department – Division	BQ93LV1 BQ93LV2 BQ93LV3	ESUM93L3
94	Revenue	BQ94LV1 BQ94LV2 BQ94LV3	RSUM94L1 RSUM94L3
95	Department – Unit	BQ95LV1 BQ95LV2 BQ95LV3 BQ95LV4 BQ95LV5 BQ95LV6 BQ95LV7	ESUM95L2 ESUM95L3 ESUM95L7
37	Program Phase Revenue and Expense	BQ37LV1 BQ37LV2 BQ37LV3	
40	Program Phase Reimbursement	BQ38LV1 BQ38LV2 BQ38LV3	
38	Program Period Revenue and Expense	BQ39LV1 BQ39LV2	
39	Program Period Reimbursement	BQ40LV1 BQ40LV2	

Query Pages

Query pages can be accessed by entering the page code into the Jump to box in the Primary Navigation Panel. Each query page displays the budget lines in a grid at the top of the page and three sections below for the selected line.

The screenshot shows the AFIS Budgetary Control interface. The top navigation bar includes links for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. The left navigation menu lists options like Message Center, Search, Document Catalog, History, Favorites, and Administration. The main content area displays the 'Dept Expense 93: Level 3' query page. It features a table with columns: BFY, Fund, Department, Appr Unit, Div, Obj Class, Current Budget, Encumbered, Actual Expenses, and Unobligated. Below the table, there are three sections: Budget Actuals, Budgeted Amounts, and General Information. The Budget Actuals section shows various financial metrics such as Purchase Reservations, Pre-Encumbered, Encumbered, Accrued Expenses, Cash Expenses, and Actual Expenses, along with their respective uncommitted, unobligated, and unexpended cash amounts.

BFY	Fund	Department	Appr Unit	Div	Obj Class	Current Budget	Encumbered	Actual Expenses	Unobligated
2015	9007	107	1070000	107	7000	\$1,000,000.00	\$16,399.99	\$7,060.00	\$976,540.01

Budget Actuals

Purchase Reservations:	\$0.00	Uncommitted:	\$976,540.01
Pre-Encumbered:	\$0.00	Unobligated:	\$976,540.01
Encumbered:	\$16,399.99	Unexpended Cash:	\$999,470.00
Accrued Expenses:	\$6,530.00	Unexpended Accrued:	\$992,940.00
Cash Expenses:	\$530.00		
Actual Expenses:	\$7,060.00		

Budgeted Amounts

General Information

The Budget Actuals section displays the balances for encumbrances and expenses along with calculated amounts for uncommitted, unobligated, and unexpended cash.

This close-up view of the Budget Actuals section shows the following data:

Purchase Reservations:	\$0.00	Uncommitted:	\$976,540.01
Pre-Encumbered:	\$0.00	Unobligated:	\$976,540.01
Encumbered:	\$16,399.99	Unexpended Cash:	\$999,470.00
Accrued Expenses:	\$6,530.00	Unexpended Accrued:	\$992,940.00
Cash Expenses:	\$530.00		
Actual Expenses:	\$7,060.00		

The Budgeted Amounts section displays the original and current budgeted amounts along with any transfers in or out of the budget.

This close-up view of the Budgeted Amounts section shows the following data:

Adopted:	\$1,000,000.00	Budget Reserve:	\$0.00
Allocated:	\$0.00	Transfer Out:	\$0.00
Amendments:	\$0.00	Transfer In:	\$0.00
Carry Forward:	\$0.00	Original Budget:	\$1,000,000.00
Reversions:	\$0.00	Current Budget:	\$1,000,000.00

The General Information section contains the information for the budget line such as the Name, Manager, Description, House Bill Number, and Start/End Dates.

▼ General Information

BFY : 2015

Fund : 9007

Department : 107

Appr Unit : 1070000

Div : 107

Obj Class : 7000

Name : Activity 1.2C

Manager :

Description :

Active : ☒

House Bill Number :

Start Date :

End Date :

The labels for each field in the Budget Actuals and Budgeted Amounts sections are clickable links that will display the pending increases and decreases for that value. The Magnifying Glass icons allow users to drill down and view the transactions that have impacted the amount shown in the field. For example, the encumbered amount is impacted by Encumbrance documents that have been processed for the selected budget line.

On the query page for Budget Structure 90 Level 1, the Allotments link at the bottom will display the configured allotments for the selected budget line.

The screenshot shows the AFIS Budgetary Control interface. The top navigation bar includes links for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. The left sidebar contains links for Training - Financial, Message Center, Search, Document Catalog, History, Favorites, and Administration. The main content area is titled "Allotments" and displays a table of budget data.

BFY	Fund Group	Dept	Appr Cat	Period	Current Budget	Encumbered	Actual Expenses	Unobligated
✓ 2015	8000	107	1070000	1	\$250,000.00	\$0.00	\$0.00	\$250,000.00
2015	8000	107	1070000	2	\$250,000.00	\$0.00	\$0.00	\$250,000.00
2015	8000	107	1070000	3	\$250,000.00	\$0.00	\$0.00	\$250,000.00
2015	8000	107	1070000	4	\$250,000.00	\$0.00	\$0.00	\$250,000.00
2015	8000	107	1070000	5	\$0.00	\$0.00	\$0.00	\$0.00

Below the table, there are links for "First", "Prev", "Next", and "Last". A "Search" button is also present. The "Budget Actuals" section shows various financial metrics:

- Purchase Reservations: \$0.00
- Pre-Encumbered: \$0.00
- Encumbered: \$0.00
- Accrued Expenses: \$0.00
- Cash Expenses: \$0.00
- Actual Expenses: \$0.00
- Uncommitted: \$250,000.00
- Unobligated: \$250,000.00
- Unexpended Cash: \$250,000.00
- Unexpended Accrued: \$250,000.00

At the bottom, there is a "Budgeted Amounts" section and a "Top" link. The footer includes links for "Modified Budget Line Controls" and "Budget Structure 1 Level 1".

On the query pages for Expense Budget Structures 91, 92, 93, and 95, the Next Level and Previous Level links allow users to navigate to the other level query pages for the budget structure.

Summary Query Pages

Summary query pages allow users to see combined totals for any COA elements in the budget structure. These pages are available primarily at the lowest required level for a budget structure because they will summarize the data across budget lines for any COA elements that have been defined for the structure.

The screenshot shows the AFIS Budgetary Control interface for Budget Structure 93 Level 3 ESUM. The top navigation bar includes links for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. The left sidebar contains links for Training - Financial, Message Center, Search, Document Catalog, History, Favorites, and Administration. The main content area is titled "Budget Structure 93 Level 3 ESUM" and displays a summary of budget data.

Below the title, there are search filters for BFY, Fund, Department, Appr Unit, Div, and Obj Class. A "Detail" dropdown menu is also present. The "Browse" and "Clear" buttons are located at the top left of the summary table.

BFY	Fund	Department	Appr Unit	Div	Obj Class	Current Budget	Pre-Encumbered	Encumbered	Actual Expenses	Uncommitted	Unobligated
✓	107					\$1,000,000.00	\$0.00	\$16,399.99	\$7,060.00	\$976,540.01	\$976,540.01

Below the table, there are links for "First", "Prev", "Next", and "Last". A "Detail" dropdown menu is also present. The "Dept Expense 93, Level 3" link is located at the bottom left of the summary table.

Lesson Summary

In this lesson, you:

- Reviewed the budget control lifecycle
- Examined the budget controls
- Identified the available budget structures
- Reviewed the available budget documents
- Reviewed the available budget query pages

Check Your Progress

1. The BUDCON table stores records that link Control IDs with budget structure levels.
 - a. True
 - b. False
2. All of the following are available budget structure types except
 - a. Department Expense Budget
 - b. Revenue
 - c. Cost Structure
 - d. Appropriation and Allotment
 - e. None of the Above
3. Every budget structure level has a corresponding summary query page.
 - a. True
 - b. False

3. Appropriation Budgets

Learning Objectives

In this lesson, you will:

- Examine the Appropriation budget creation process
- Amend an Appropriation budget
- Transfer an Appropriation budget
- Review the Relief Bill budget process
- Review the budget deactivation process

Lesson Overview

Appropriation budgets are defined in legislation and approved by the Governor for the State of Arizona. This lesson reviews the process of creating, amending, and transferring Appropriation budgets in AFIS. This lesson also reviews the Relief Bill and budget lapse process in AFIS.

3.1. Appropriation Budgets

Appropriation budgets use budget structure 90 and are established in AFIS through the creation of a BGA90 document. Budget structure 90 and the BGA90 document consist of only one level for budget line definition. Each budget line created in Level 1 on an Appropriation budget document can have Appropriation Controls and Allotments specified which further control and define the breakdown for the appropriated funds.

The purpose of each line on a budget document is driven by the combination of the Line Action and Event Type selected. The valid event types on the BGA90 document are listed in Table 5 below:

Table 5: Appropriation Budget Structure Event Types

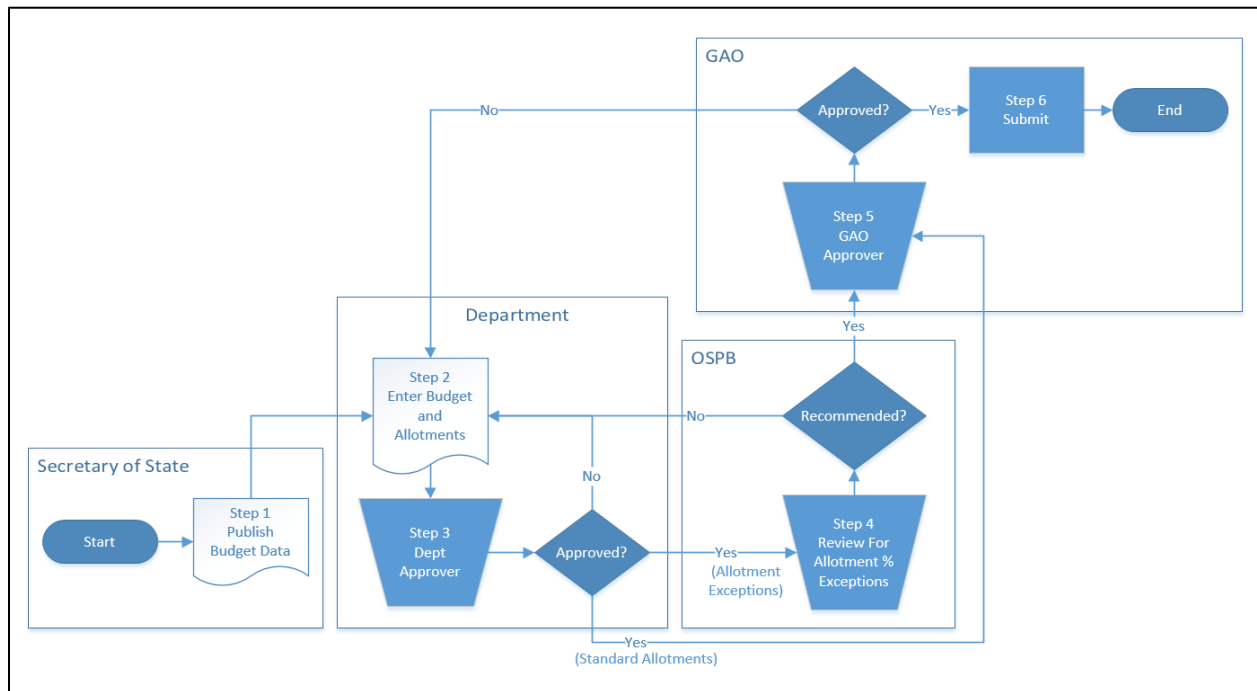

Event Type	Name
BG01	Adopt an Expense Budget
BG03	Amend an Expense Budget
BG05	Revert an Expense Budget
BG06	Transfer In an Expense Budget
BG07	Transfer Out an Expense Budget
BG08	Deactivate Budget Line
BG09	Activate Budget Line
BG10	Delete Budget Line
BGE1	Adopt Expense Budget Exception
BGE3	Amend an Expense Budget Exception

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-001 (Create Appropriation Budget and Budget Allotments) and represented by Figure 3 below.

1. Secretary of State Chapters and publishes budget related bills.
2. The Department enters budget and allotment data based on the published budget. The following items will be included in this process: validate funding sources, budget fiscal year and appropriations, bill information, start and end date; match totals with the published budget; allotment exceptions request is routed to the Office of Strategic Planning and Budgeting (OSPB) and General Accounting Office (GAO); ensure that workflow is based on standard budget allotments or allotment exceptions.
3. The Department approver reviews and validates against the business needs of the agency.
4. If there are allotment percentage exceptions, the OSPB will review the request, as well as the explanation provided by the agency in the letter of justification and analyze for future budget issues for the agency based on budget submission. The OSPB will recommend or reject the budget document based on allotment exceptions.
5. The General Accounting Office (GAO) will review for funding sources, budget fiscal year and appropriation in accordance with the published budget. If required, the GAO will also analyze the allotment exception request and the State Comptroller will approve or reject the request.
6. GAO will approve if all requirements are met or reject for workflow to Step 2.

Figure 3: Create Appropriation Budget and Allotments (BC-TB-001)

ACTIVITY 3.1

Create an Appropriation Budget

Scenario

The Secretary of State has published the budget related bills. You are responsible for creating the budget in AFIS based on the published data.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGA90**.
 5. In the **Dept.** field, enter the data from **your student data card**.
 6. Check the **Auto Numbering** check box.

7. Click **Create**. The budget document opens.

The screenshot displays the AFIS Budgetary Control interface. At the top, the AFIS logo is on the left, and navigation links (Jump to, Home, Personalize, Accessibility, App Help, About) are on the right. Below the header bar, a breadcrumb trail shows 'Appropriation and Allotment Budget Document(BGA90)'. The main content area is titled 'Header' and contains several input fields: Transaction Date, Budget FY, Fiscal Year, Period, Start Date, and End Date. Below these fields, it shows 'Created By: Student7', 'Created On: 04/05/2015', 'Modified By: Student7', and 'Modified On: 04/05/2015'. At the bottom, there is a 'Save' button, an 'Undo' button, and a 'Load Constraints' button. Below these buttons is a table with three rows: 'Level 1: Appropriation and Allotment' (Total Lines: 0), 'Appropriation Controls' (Total Lines: 0), and 'Allotments' (Total Lines: 0). At the very bottom, there are buttons for 'Copy', 'Validate', 'Submit', 'Discard', 'Print', 'Processing', 'Workflow', 'File', and 'Close'.

B. Complete the Header section of the budget document.

1. In the **Transaction Date** field, enter **today's date**, or leave blank for default.
2. In the **Budget FY** field, enter the **current BFY**, or leave blank for default.
3. In the **Fiscal Year** field, enter the **current FY**, or leave blank for default.
4. In the **Start Date** field, enter **07/01/2014**.

5. In the **End Date** field, enter **06/30/2016**.

The screenshot shows the AFIS Budgetary Control interface. The top navigation bar includes links for Home, Personalize, Accessibility, App Help, and About. The main header section contains the following fields:

- Transaction Date: [Empty]
- Budget FY: [Empty]
- Fiscal Year: [Empty]
- Period: [Empty]
- Start Date: 7/1/2015
- End Date: 6/30/2016
- Created By: Student7
- Created On: 04/05/2015
- Modified By: Student7
- Modified On: 04/05/2015

Below the header section, there is a table with the following data:

Level 1: Appropriation and Allotment	Total Lines: 0
Appropriation Controls	Total Lines: 0
Allotments	Total Lines: 0

At the bottom of the interface, there are buttons for Save, Undo, Load Constraints, Copy, Validate, Submit, Discard, Print, Processing, Workflow, File, and Close.

- C. Complete the Level 1: Appropriation and Allotment section.
1. Click on the **Level 1: Appropriation and Allotment** section.
 2. Click **Insert New Line**. The Action defaults to New.
 3. In the **Event Type** field, enter **BG01**, Adopt an Expense Budget.
 4. In the **Name** field, enter **Lump Sum Appropriation**.
 5. In the **Dollar Amount** field, enter **100000**.
 6. Observe the default Increase/Decrease action is **Increase**.
 7. In the **Fund Group** field, enter **8000**.
 8. In the **Department** field, enter the data from **your student data card**.
 9. In the **Appr Category** field, enter the data from **your student data card**.
 10. In the **Description** field, enter **New Spending Budget**.
 11. In the **House Bill Number** field, enter the data from **your student data card**.

12. Click **Save**.

The screenshot displays the AFIS Budgetary Control interface. At the top, the header includes the AFIS logo, a 'Jump to' field with 'ESUM93L3', and navigation links for Home, Personalize, Accessibility, App Help, and About. Below the header, a status bar shows 'Welcome, Student 7' and a breadcrumb trail: Procurement > Budgeting > Accounts Receivable > Accounts Payable. The main title bar reads 'Appropriation and Allotment Budget Document(BGA90)' with fields for Dept: 107, ID: 201500000029, Ver.: 1, Function: New, Phase: Draft, and a 'Modified by' field showing 'Student7' on '04/04/2015'.

The 'Header' section shows 'Level 1: Appropriation and Allotment' with 'Total Lines: 1'. The 'Appropriation and Allotment Level' form contains the following fields:

- Action: New (dropdown)
- Event Type: BG01 (dropdown)
- Name: Lump Sum Appropriation
- Start Date: (calendar icon)
- End Date: (calendar icon)
- Dollar Amount: 100000
- Increase/Decrease: Increase (dropdown)
- Allotment Dist Amount: (empty field)
- Reservation Type: (empty field)
- Budget FY: (empty field)
- Fiscal Year: (empty field)
- Period: (empty field)
- Fund Group: 8000 (dropdown)
- Department: 107 (dropdown)
- Appr Category: 1010000 (dropdown)
- Contact: (empty field)
- Contact Name: (empty field)
- Description: New Spending Budget (text area)
- House Bill Number: HB2001
- Debt ID: (empty field)

Below the form, there are buttons for Save, Undo, Insert New Line, Insert Copied Line, and Edit with Grid. The 'Appropriation Controls' and 'Allotments' sections both show 'Total Lines: 0'. At the bottom, there are buttons for Copy, Validate, Submit, Discard, Print, Processing, Workflow, File, and Close.

D. Complete the Allotments section.

1. Click on the **Allotments** section.
2. Click **Insert New Line** 5 times to add 5 blank lines.
3. In the first line, click the cell under Period.
4. In the **Period** field, enter **1** and press **tab**.
5. The **Percentage** field is selected. Enter **25**, press **tab** 3 times.
6. In the second row, **Period** field, enter **2**, and press **tab**.
7. The **Percentage** field is selected. Enter **25**, press **tab** 3 times.
8. In the third row, **Period** field, enter **3**, and press **tab**.
9. The **Percentage** field is selected. Enter **25**, press **tab** 3 times.
10. In the fourth row, **Period** field, enter **4**, and press **tab**.
11. The **Percentage** field is selected. Enter **25**, press **tab** 3 times.
12. In the fifth row, **Period** field, enter **5**, and press **tab**.
13. The **Percentage** field is selected. Enter **0**.

14. Click **Save**.

Save Undo Insert New Line Insert Copied Line

Copy Validate Submit Discard Print Processing Workflow File Close

E. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."
2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

3.2. Appropriation Budget Amendments

Modification or amendment of an Appropriation budget requires the creation and submission of the same budget document type that was used to create the budget line. For Appropriation budgets, the document code is BGA90. The Line Action is changed to Modify and the Event Type selected is BG03, Amend an Expense Budget.

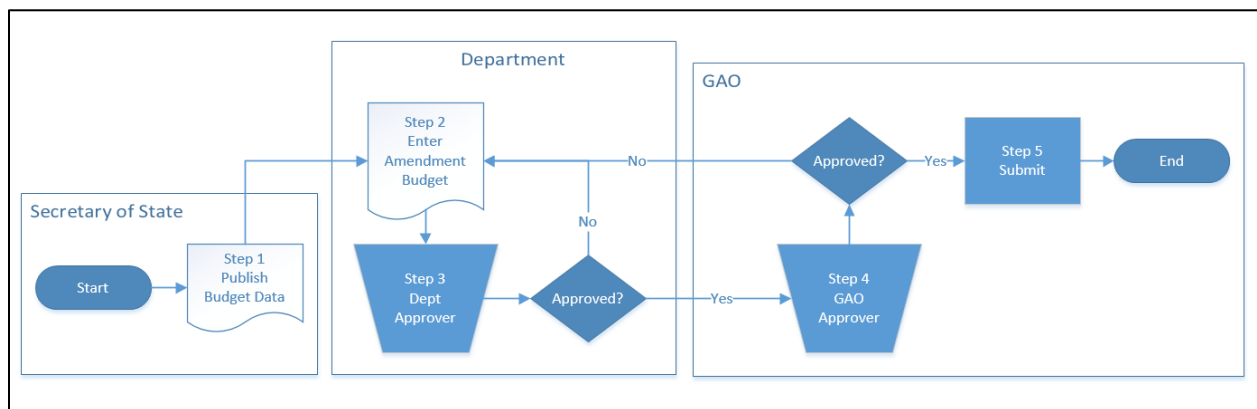

When a budget line is amended, the Increase/Decrease field needs to be set so that the dollar amount entered is either added to or subtracted from the current budget amount. This value represents the change in budget amount and is different than accounting documents where a new value is entered.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-002 (Amend Appropriation Budget and Budget Allotments) and represented by Figure 4 below.

1. Secretary of State Chapters and publishes budget related bills.
2. The Department will amend the budget and allotment data based on published budget.
The following items will be included in this process: validate funding sources, budget fiscal year, appropriations and amendment amount; match totals with the published budget; and ensure allotments match original load percentages.
3. The Department approver reviews and validates the amendment amount and publishes the budget.
4. The General Accounting Office (GAO) will review for funding sources, budget fiscal year, appropriations & allotment and amendment amount in accordance with the published budget.
5. The GAO will submit if all requirements are met or reject for workflow to Step 2.

Figure 4: Amend Appropriation Budget and Allotments (BC-TB-002)

ACTIVITY 3.2**Modify an Appropriation Budget****Scenario**

The Secretary of State has published the budget related bills. You are responsible for amending the budget in AFIS based on the published data and required changes.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGA90**.
 5. In the **Dept** field, enter the data from *your student data card*.
 6. Check the **Auto Numbering** check box.
 7. Click **Create**. The Budget document opens.
- B. Complete the Header section of the budget document.
 1. In the **Transaction Date** field, enter *today's date*, or leave blank for default.
 2. In the **Budget FY** field, enter the *current BFY*, or leave blank for default.
 3. In the **Fiscal Year** field, enter the *current FY*, or leave blank for default.
 4. In the **Start Date** field, enter the data from *your student data card*.
 5. In the **End Date** field, enter the data from *your student data card*.

6. Click on the **Level 1: Appropriation and Allotment** section.

The screenshot displays the AFIS Budgetary Control interface. At the top, the header bar includes the AFIS logo, a 'Jump to' dropdown set to 'ESUM93L3', and navigation links for Home, Personalize, Accessibility, App Help, and About. Below this, a sub-header bar shows the current document: 'Appropriation and Allotment Budget Document(BGA90)', along with metadata: 'Dept: 107', 'ID: 201500000030', 'Ver.: 1', 'Function: New', 'Phase: Draft', and 'Modified by Student7, 04/04/2015'. The main content area is titled 'Header' and contains a form with the following fields: Transaction Date, Budget FY, Fiscal Year, Period, Start Date (07/01/2014), End Date (06/30/2016), Created By (Student7), Created On (04/05/2015), Modified By (Student7), and Modified On (04/05/2015). Below the form, there is a 'Save' button and an 'Undo' button. A 'Load Constraints' button is located on the right. A summary table at the bottom shows the following data:

Section	Total Lines
Level 1: Appropriation and Allotment	1
Appropriation Controls	0
Allotments	0

At the bottom of the interface, there are buttons for 'Copy', 'Validate', 'Submit', 'Discard', 'Print', 'Processing', 'Workflow', 'File', and 'Close'.

C. Complete the Level 1: Appropriation and Allotment section.

1. Click **Insert New Line**.
2. Set the **Action** field to **Modify**.
3. In the **Event Type** field, enter **BG03**, Amend an Expense Budget.
4. In the **Dollar Amount** field, enter **5000**.
5. Set the **Increase/Decrease** field to **Decrease**.
6. In the **Fund Group** field, enter **8000**.
7. In the **Department** field, enter the data from *your student data card*.
8. In the **Appr Category** field, enter the data from *your student data card*.
9. In the **Description** field, enter **Budget amended**.
10. In the **House Bill Number** field, enter the data from *your student data card*.

11. Click **Save**.

The screenshot displays the AFIS Budgetary Control interface. At the top, the header includes the AFIS logo, a navigation bar with links like 'Jump to: ESUM93L3', 'Go', 'Home', 'Personalize', 'Accessibility', 'App Help', and 'About'. Below this, a status bar shows 'Welcome, Student 7' and navigation tabs for 'Procurement', 'Budgeting', 'Accounts Receivable', and 'Accounts Payable'. The main title bar reads 'Appropriation and Allotment Budget Document(BGA90)' with details: 'Dept: 107', 'ID: 201500000030', 'Ver.: 1', 'Function: New', 'Phase: Draft', and 'Modified by Student7, 04/04/2015'.

The 'Header' section shows 'Level 1: Appropriation and Allotment' with 'Total Lines: 1'. The 'Appropriation and Allotment Level' form contains the following fields:

- Action:** Modify (dropdown)
- Event Type:** BG03 (dropdown)
- Name:** (text field)
- Start Date:** (calendar icon)
- End Date:** (calendar icon)
- Dollar Amount:** 5000 (text field)
- Increase/Decrease:** Decrease (dropdown)
- Allotment Dist Amount:** (text field)
- Reservation Type:** (dropdown)
- Budget FY:** (text field)
- Fiscal Year:** (text field)
- Period:** (text field)
- Fund Group:** 8000 (dropdown)
- Department:** 107 (dropdown)
- Appr Category:** 1010000 (dropdown)
- Contact:** (dropdown)
- Contact Name:** (text field)
- Description:** Budget amended (text area)
- House Bill Number:** HB2001 (text field with 'x' icon)
- Debt ID:** (dropdown)

Below the form, there are buttons: 'Save', 'Undo', 'Insert New Line', 'Insert Copied Line', and 'Edit with Grid'. At the bottom, there are tabs for 'Appropriation Controls' (Total Lines: 0) and 'Allotments' (Total Lines: 0). A footer bar contains buttons: 'Copy', 'Validate', 'Submit', 'Discard', 'Print', 'Processing', 'Workflow', 'File', and 'Close'.

D. Complete the Allotments section.

1. Click on the **Allotments** section.
2. Click **Insert New Line** 5 times to add 5 blank lines.
3. In the first line, click the cell under **Period**.
4. In the **Period** field, enter **1** and press **tab**.
5. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
6. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
7. In the second row, **Period** field, enter **2**, and press **tab**.
8. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
9. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
10. In the third row, **Period** field, enter **3**, and press **tab**.
11. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
12. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
13. In the fourth row, **Period** field, enter **4**, and press **tab**.
14. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
15. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
16. In the fifth row, **Period** field, enter **5**, and press **tab**.
17. The **Percentage** field is selected. Enter **0**.

18. Click **Save**.

The screenshot shows the AFIS Budgeting interface. At the top, there's a navigation bar with the AFIS logo and links for Home, Personalize, Accessibility, App Help, and About. Below this is a status bar indicating the user is 'Student 20' and the document is 'Appropriation and Allotment Budget Document(BGA90)'. The document details include Dept: 200, ID: 201500000029, Ver.: 1, Function: New, Phase: Draft, and Modified by Student20 on 04/06/2015.

The main section is titled 'Allotments' and shows a table with 5 total lines. The table has the following columns: Budget FY, Period, Percentage, Allotment Amount, and Increase/Decrease. The data is as follows:

Budget FY	Period	Percentage	Allotment Amount	Increase/Decrease
2015	1	25.00%		Increase
2015	2	25.00%		Increase
2015	3	25.00%		Increase
2015	4	25.00%		Increase
2015	5	0.00%		Increase

At the bottom of the table, there are navigation buttons: First, Previous, Next, and Last. Below the table, there are buttons for Save, Undo, Insert New Line, and Insert Copied Line.

E. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."
2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

3.3. Appropriation Transfer

When budget authority needs to be transferred from one budget line to another, a pair of balancing transfer in and transfer out lines must be created on an Appropriation budget (BGA90) document. The event type entered on the budget line tells AFIS to perform a transfer. For the transfer out, the line Action is Modify, but for the transfer in, the line Action can be either New, which establishes a budget, or Modify, which modifies an existing budget.

- **Event Type BG07** – Transfer Out an Expense Budget
- **Event Type BG06** – Transfer In and Expense Budget

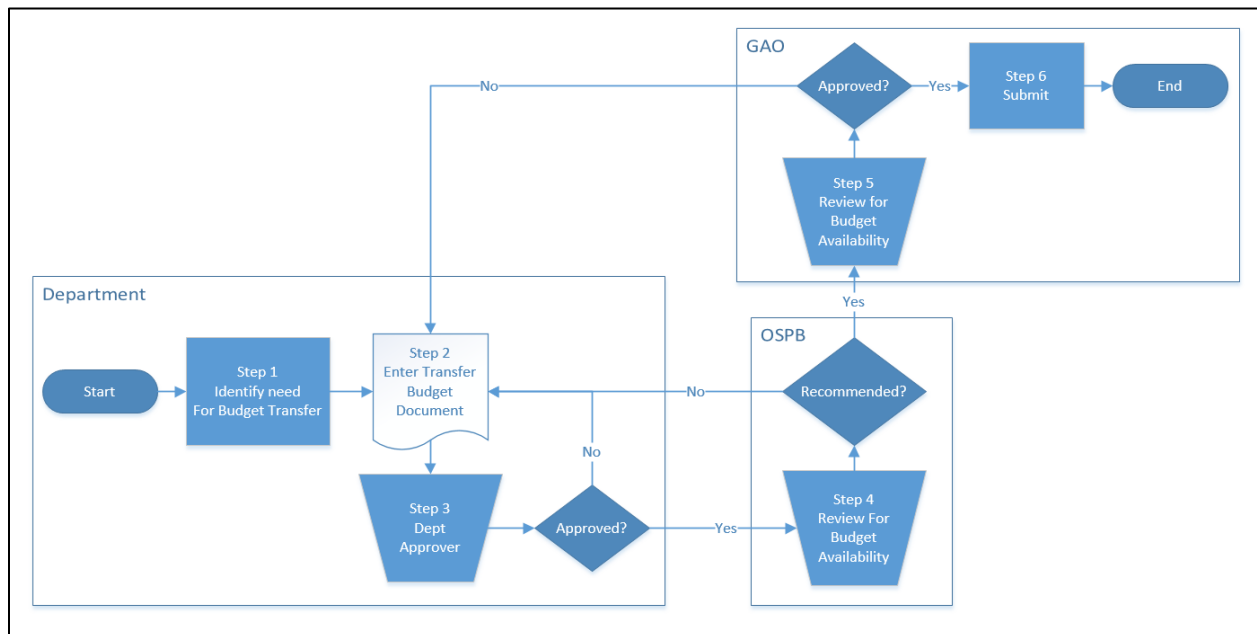

It is important to note that when budget amounts are transferred out, the Increase/Decrease field is set to **Increase** which will subtract the dollar amount entered from the specified budget line. When budget amounts are transferred in, the Increase/Decrease field is again set to **Increase** which will add the amount to the new or existing budget line.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-003 (Transfer Appropriation Budgets) and represented by Figure 5 below.

1. Departments identify a need to transfer appropriation authority.
2. The Department will enter the budget document to transfer appropriation authority. The following items will be included in this process: verify the transfer is within the same funding source; validate budget fiscal year, appropriations and transfer amount; AFIS will enforce that the transfer out and transfer in amounts match; a letter of justification for transfer needs to be routed to the OSPB and the GAO.
3. The Department approver reviews and validates the transfer.
4. The OSPB reviews the transfer for budget availability and analyzes prior and current year budgets to ensure that the transfer will not cause budget issues.
5. The General Accounting Office (GAO) will review the budget transfer based on the justification provided and validate for funding sources, budget fiscal year, appropriations. State Comptroller will approve or reject the budget transfer.
6. GAO will submit if all requirements are met or reject for workflow to Step 2.

Figure 5: Transfer Appropriation Budgets (BC-TB-003)

ACTIVITY 3.3**Transfer an Appropriation Budget****Scenario**

Your department has established a need to transfer appropriation authority for \$10,000 budgeted dollars to another department. You will complete the budget transfer using the Appropriation budget document.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGA90**.
 5. In the **Dept** field, enter the data from ***your student data card***.
 6. Check the **Auto Numbering** check box.
 7. Click **Create**. The Budget document opens.
- B. Complete the Header section of the budget document.
 1. In the **Transaction Date** field, enter ***today's date***, or leave blank for default.
 2. In the **Budget FY** field, enter the ***current BFY***, or leave blank for default.
 3. In the **Fiscal Year** field, enter the ***current FY***, or leave blank for default.
 4. In the **Start Date** field, enter the data from ***your student data card***.
 5. In the **End Date** field, enter the data from ***your student data card***.

6. Click on the **Level 1: Appropriation and Allotment** section.

C. Complete the Level 1: Appropriation and Allotment section.

1. Click **Insert New Line**.
2. Set the **Action** field to **Modify**.
3. In the **Event Type** field, enter **BG07**, Transfer Out an Expense Budget.
4. In the **Dollar Amount** field, enter **10000**.
5. Leave the **Increase/Decrease** field set to **Increase**. This is because the Transfer Out budget amount is subtracted to arrive at the Current Budget so an "Increase" transfers authority out.
6. In the **Fund Group** field, enter **8000**.
7. In the **Department** field, enter the data from *your student data card*.
8. In the **Appr Category** field, enter the data from *your student data card*.
9. In the **Description** field, enter **Budget transferred out**.
10. In the **House Bill Number** field, enter the data from *your student data card*.

11. Click **Save**.

The screenshot displays the AFIS Budgetary Control interface. At the top, the header includes the AFIS logo, a navigation bar with links like 'Home', 'Personalize', 'Accessibility', 'App Help', and 'About', and a status bar showing 'Welcome, Student 7'. Below the header, the main form is titled 'Appropriation and Allotment Level' and contains various input fields for budgetary data. The form is organized into two main sections: 'Appropriation and Allotment Level' and 'Allotments'. The 'Appropriation and Allotment Level' section includes fields for 'Action' (set to 'Modify'), 'Event Type' (BG07), 'Name', 'Start Date', 'End Date', 'Dollar Amount' (10000), 'Increase/Decrease' (set to 'Increase'), 'Allotment Dist Amount', 'Reservation Type', 'Budget FY', 'Fiscal Year', 'Period', 'Fund Group' (8000), 'Department' (107), 'Appr Category' (1010000), 'Contact', 'Contact Name', 'Description' (Budget transferred out), 'House Bill Number' (HB2001), and 'Debt ID'. The 'Allotments' section is currently empty, showing 'Total Lines: 0'. At the bottom of the form, there are buttons for 'Save', 'Undo', 'Insert New Line', 'Insert Copied Line', 'Edit with Grid', 'Copy', 'Validate', 'Submit', 'Discard', 'Print', 'Processing', 'Workflow', 'File', and 'Close'.

D. Complete the Allotments section.

1. Click on the **Allotments** section.
2. Click **Insert New Line** 5 times to add 5 blank lines.
3. In the first line, click the cell under **Period**.
4. In the **Period** field, enter **1** and press **tab**.
5. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
6. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
7. In the second row, **Period** field, enter **2**, and press **tab**.
8. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
9. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
10. In the third row, **Period** field, enter **3**, and press **tab**.
11. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
12. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
13. In the fourth row, **Period** field, enter **4**, and press **tab**.
14. The **Percentage** field is selected. Enter **25**, press **tab** 2 times.
15. In the **Increase/Decrease** dropdown, select **Decrease**, and press **tab**.
16. In the fifth row, **Period** field, enter **5**, and press **tab**.
17. The **Percentage** field is selected. Enter **0**.

18. Click **Save**.

E. Add a line to transfer in the same amount for the other department.

1. Click the Level 1 component
2. Click **Insert New Line**.
3. Set the **Action** field to **New**.
4. In the **Event Type** field, enter **BG06**, Transfer In an Expense Budget.
5. In the **Dollar Amount** field, enter **10000**.
6. Leave the **Increase/Decrease** field set to **Increase**.
7. In the **Fund Group** field, enter **8000**.
8. In the **Department** field, enter the data from *your student data card*.
9. In the **Appr Category** field, enter **1000001**.
10. In the **Description** field, enter **Budget transferred in**.
11. In the **House Bill Number** field, enter the data from *your student data card*.
12. Click **Save**.

F. Complete the Allotments section.

1. Click the **Allotments** section.
2. Click **Insert New Line** 5 times to add 5 blank lines.
3. In the first line, click the cell under Period.
4. In the **Period** field, enter **1** and press **tab**.
5. The **Percentage** field is selected. Enter **15**, press **tab** 3 times.
6. In the second row, **Period** field, enter **2**, and press **tab**.
7. The **Percentage** field is selected. Enter **20**, press **tab** 3 times.

8. In the third row, **Period** field, enter **3**, and press **tab**.
9. The **Percentage** field is selected. Enter **30**, press **tab** 3 times.
10. In the fourth row, **Period** field, enter **4**, and press **tab**.
11. The **Percentage** field is selected. Enter **35**, press **tab** 3 times.
12. In the fifth row, **Period** field, enter **5**, and press **tab**.
13. The **Percentage** field is selected. Enter **0**.
14. Click **Save**.

Budget FY	Period	Percentage	Allotment Amount	Increase/Decrease
	1	15		Increase ▼
	2	20		Increase ▼
	3	30		Increase ▼
	4	35		Increase ▼
	5	0		Increase ▼

G. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."
2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

3.4. Relief Bill Budgets

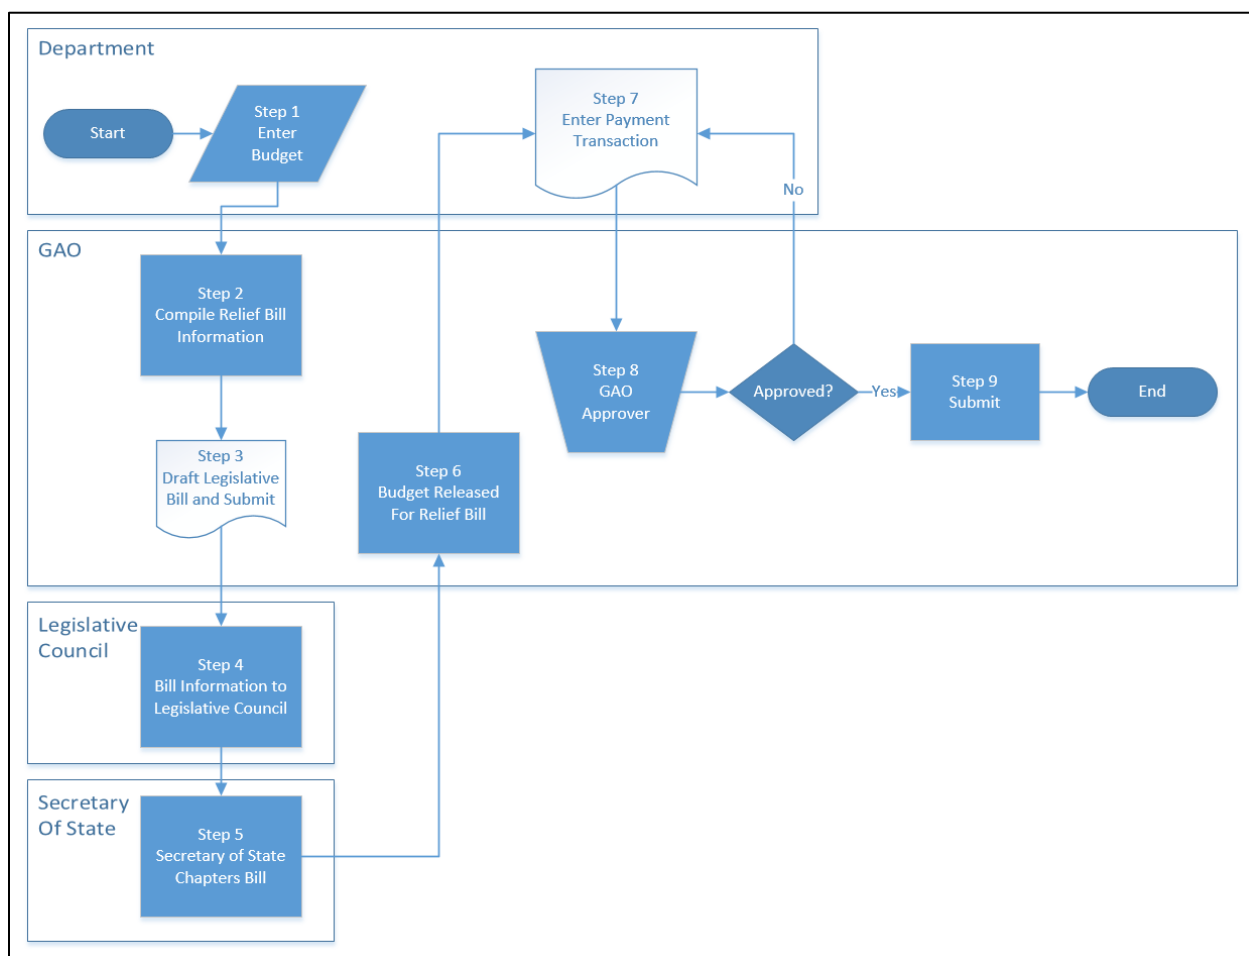

An agency may submit a request for inclusion in the Relief Bill process if a claim is presented which is more than one fiscal year and less than four fiscal years old and if sufficient funds remain in the reverted appropriation to pay the claim. The Department of Administration shall present the claim to the legislature requesting an appropriation of monies sufficient for payment of the claim.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-015 (Relief Bill) and represented by Figure 6 below.

1. Departments enter a Relief Bill appropriation budget in AFIS. The appropriation budget will be in a 'held' status until the Relief Bill has been signed. In addition to adding an appropriation budget, a line will be created to note this amount should be reduced from the original appropriation. A new appropriation will need to be set up by the GAO.
2. The budget is routed to the GAO to compile the Relief Bill information. GAO will run a report based on the appropriation number to get a complete list of all requests. GAO will: verify that the original appropriation has remaining authority, verify that the attached appropriation matches the invoice, and verify that the agency has identified and reduced the amount on the original appropriation.
3. The GAO will draft the Relief Bill and the bill is reviewed by appropriate parties.
4. Bill information is routed to Legislative Council for review.
5. Once the Legislatures have approved and the Governor has signed the bill, the Secretary of State will chapter the bill.
6. GAO submits the appropriation budget for Relief Bill. This will allow departments to submit their payment for the Relief Bill.
7. Departments will enter their encumbrance and copy forward to the payment transaction in AFIS. The payment document will be routed to GAO for approval and processing.
8. GAO will validate the payment information matches the original request and will release the payment document. If the information does not match or is invalid, the document will be rejected and routed back to step 7.
9. The document is submitted for payment generation and budget is updated. GAO will run reports to validate all payments have been processed and the appropriation budgets have been reduced per the relief bill.

Figure 6: Relief Bill (BC-TB-015)

3.5. Appropriation Budget Lapse Process

When an Appropriation budget reaches the End Date specified, the budget lapses. This means that any funds that remain unspent or unencumbered are lapsed. Setting the proper Start and End Dates for an Appropriation budget line is very important since these dates controls the lapse process for the budget.

Inactivate Appropriation Budgets

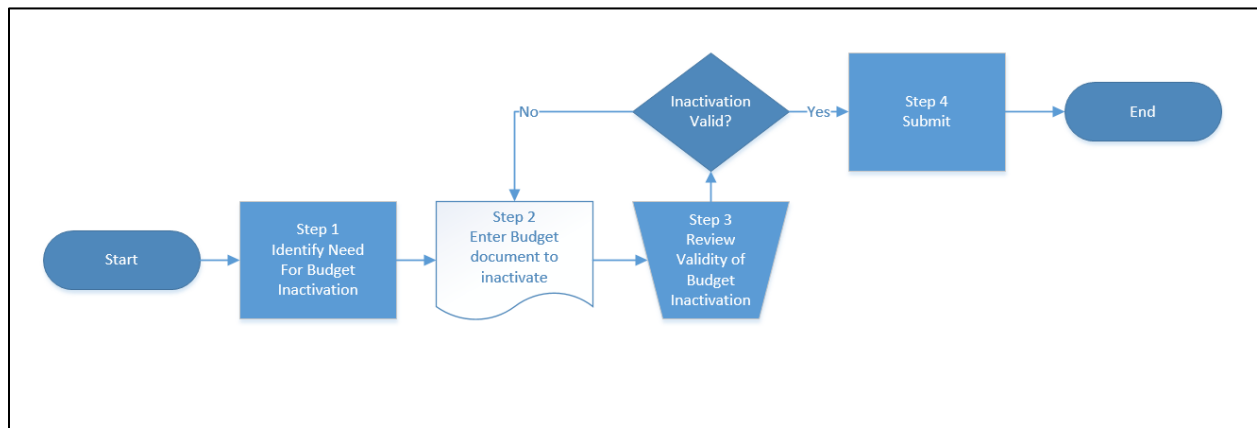

When a budget line is deactivated, that effectively stops all activity against it. When performed on a higher budget level, deactivation will stop processing against all lower level budget lines. Therefore, it is important to deactivate only at the proper level. Because of this, it is not necessary to deactivate a series of parent and child budget lines. Also, for this reason, rollup actions do not work with deactivation or reactivation, since this could cause unforeseen problems with existing budgets.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-004 (Inactivate Appropriation Budgets) and represented by Figure 7 below.

1. A need to inactivate a budget line is identified.
2. Departments will process a budget document with the budget inactivation event type to inactivate the budget line. A budget may be re-activated using the same process using the budget activation event type.
3. Department approver reviews and validates the inactivation. If rejected, the document is routed through workflow back to Step 2.
4. Upon submission, the budget line is inactivated and is no longer available for use.

Figure 7: Inactivate Appropriation Budget (BC-TB-004)

Lesson Summary

In this lesson, you:

- Examined the Appropriation budget creation process
- Amended an Appropriation budget
- Transferred an Appropriation budget
- Reviewed the Relief Bill budget process
- Reviewed the budget deactivation process

Check Your Progress

1. Appropriation budgets are determined based on the State approved legislative budget.
 - a. True
 - b. False
2. The Line Action on a budget document defaults to _____.
 - a. Modify
 - b. Delete
 - c. New
3. Relief Bill budgets allow department budgets that have not been fully depleted to be transferred to another department.
 - a. True
 - b. False
4. Changing Level 2 of a budget structure to inactive will prevent future activity at _____.
 - a. Level 1
 - b. Level 3
 - c. Level 4
 - d. Both b and c
 - e. All of the above

4. Departmental Budgets

Learning Objectives

In this lesson, you will:

- Identify the available department operating budget structures
- Establish a departmental operating budget
- Amend a departmental operating budget
- Transfer a departmental operating budget
- Research a department operating budget structure

Lesson Overview

Department operating budgets provide a way to capture and display expenditures compared to a pre-established plan. In this lesson, users review the operating budget structures and event types. Users will also create, modify, and transfer an expense budget.

4.1. Departmental Operating Budgets

The departmental operating budgets are used to track and limit expenses. When an expense document is processed in AFIS, the system will perform a check against the requesting department's budget and only allow the transaction if sufficient funds are available.

Departments can choose the budget structure that best suits their needs from the available budget structures in AFIS. The budget structures used by departments to track expenses and the COA detail they provide are:

- **Budget Structure 91** – Bureau
- **Budget Structure 92** – District
- **Budget Structure 93** – Division
- **Budget Structure 95** – Unit

Some departments may choose to use more levels of detail within a budget structure when creating budget line entries than other departments. This flexibility allows departments to track and report on expenses as necessary.

It is important to note that budget lines can be created with a line amount of \$0. This effectively creates a way to track spending without setting any limitations on the amount that can be spent against a specific budget.

4.2. Establish Operating Budgets

The documents used to create and modify departmental operating budgets are the BGE91, BGE92, BGE93, and BGE95. These documents correspond to the chosen budget structure. The only differences between the documents are the levels that are available for entry. Only the required levels within a budget structure must be defined; however, users should start at the lowest level to be used when creating a new budget line. This allows the higher levels to be automatically calculated using on the Smart Roll Up feature.

For example, if a department is using budget structure 95 and wants to track expenses at the Unit level, the department user would enter all budget information in Level 6 on a BGE95 document and use the Smart Roll Up feature to calculate the amounts for levels 1 through 5.

The valid event types on the BGE## documents are listed in Table 6 below:

Table 6: Department Expense Budget Event Types

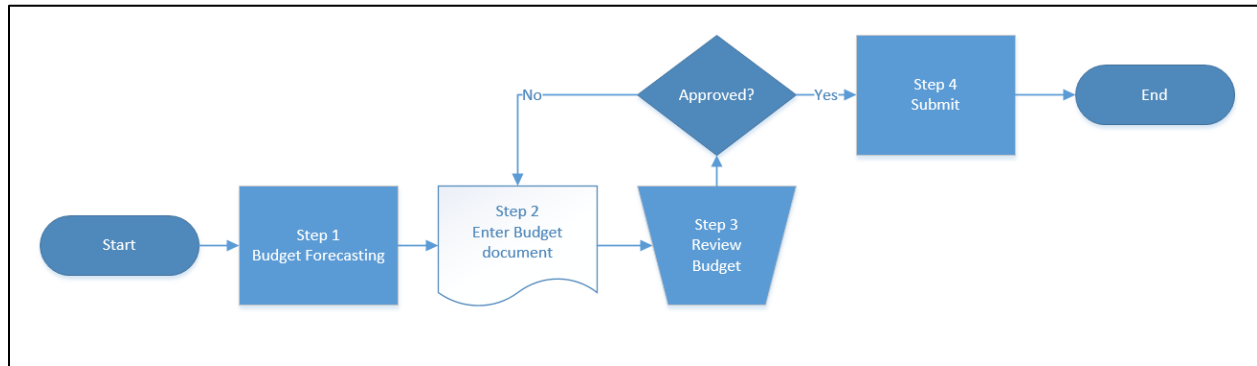

Event Type	Name
BG01	Adopt an Expense Budget
BG03	Amend an Expense Budget
BG06	Transfer In an Expense Budget
BG07	Transfer Out an Expense Budget
BG08	Deactivate Budget Line
BG09	Activate Budget Line
BG10	Delete Budget Line

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-006 (Create Departmental Budgets) and represented by Figure 8 below.

1. Departments will forecast for departmental budget requirements.
2. Departments will create budget documents in AFIS to adopt an expense budget. The department will enter the departmental budget and allotment data based on forecasted budget. Departments will budget at a lower level than the appropriation budget but will not exceed appropriation budget amounts, Departments will validate funding sources, budget fiscal year and departmental budgeting Chart of Accounts.
3. The department approver reviews and validates the department's budget needs. If rejected, the budget documents will be returned through workflow to Step 3.
4. If approved, the departmental budget document will be submitted and budget structure updated.

Figure 8: Create Departmental Budgets (BC-TB-006)

ACTIVITY 4.2

Create an Operating Budget

Scenario

Your department is ready to establish its operating budget based on the forecasted department requirements. You are responsible for creating the BGE93 document in AFIS to establish the budget lines using budget structure 93 to record at the Object Class level; Level 3 in the budget structure.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGE93**.
 5. In the **Dept** field, enter the data from *your student data card*.
 6. Check the **Auto Numbering** check box.

7. Click **Create**. The budget document opens.

E. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."
2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

4.3. Amend Operating Budgets

Departments may need to amend operating budgets based on updates and changes to forecast data. Modification, or amendment, of a departmental operating budget requires the creation and submission of the same budget document type that was used to create the budget line. For example, if the department uses budget structure 91 then the document used to create the budget line is the BGE91. On the document budget lines, the Line Action is changed to Modify and the event type selected is BG03, Amend an Expense Budget.

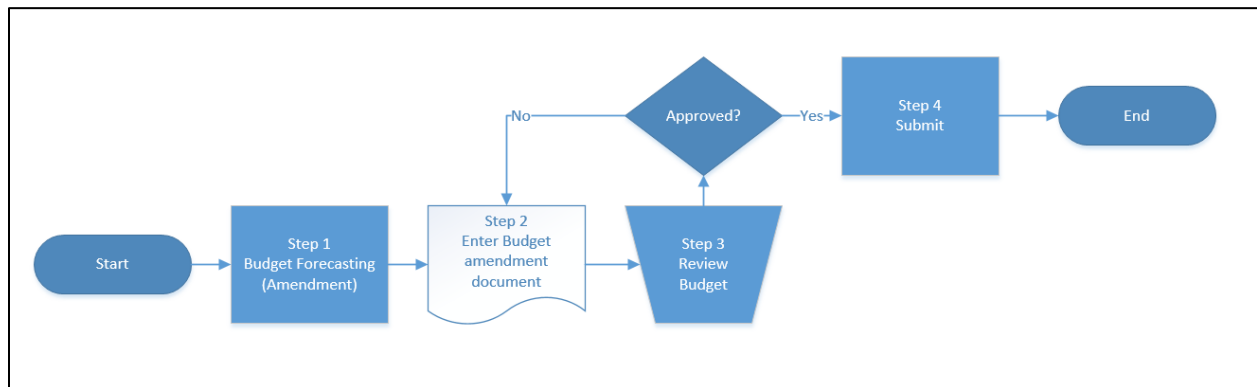

When a budget line is amended, the Increase/Decrease field needs to be set so that the dollar amount entered is either added to or subtracted from the current budget amount. This value represents the change in budget amount and is different than accounting documents where a new value is entered.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-007 (Amend Departmental Budgets) and represented by Figure 9 below.

1. Departments will forecast departmental budget requirements for budget amendments.
2. Departments will enter the amended budget and allotment data based on forecasted budget. Departments will amend the budget at a lower level than the appropriation budget but will not exceed appropriation budget amounts. Departments will validate funding sources, budget fiscal year and departmental budgeting Chart of Accounts
3. A department approver reviews and validates the amendments. If rejected, the budget documents will return through workflow to Step 2.
4. Amended budget documents will be submitted and budget structure updated once departmental approver approves the budget documents.

Figure 9: Amend Department Expense Budget (BC-TB-007)

ACTIVITY 4.3

Amend an Operating Budget

Scenario

Your department needs to amend its operating budget based on the forecasted department requirements. You are responsible for creating the BGE93 document in AFIS to amend the budget lines using budget structure 93 to record at the Object Class level; Level 3 in the budget structure.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGE93**.
 5. In the **Dept** field, enter the data from *your student data card*.
 6. Check the **Auto Numbering** check box.
 7. Click **Create**. The budget document opens.
- B. Complete the Dept Expense 93: Level 3 section.
 1. Click **Insert New Line**. The Action defaults to New.
 2. Change the **Action** to **Modify**.
 3. In the **Event Type** field, enter **BG03**, Amend an Expense Budget.
 4. In the **Dollar Amount** field, enter **5000**.
 5. Observe the default Increase/Decrease action is **Increase**.
 6. In the **Fund** field, enter **8000**.
 7. In the **Dept** field, enter the data from *your student data card*.
 8. In the **Appr Unit** field, enter the data from *your student data card*.
 9. In the **Division** field, enter the data from *your student data card*.
 10. In the **Object Class** field, enter **7000**.
 11. In the **Description** field, enter **Training budget amendment**.
 12. Click the **Smart Budget Rollup** button.

13. Click **Save**.

C. Create the rest of the amended budget lines.

1. At the top of the section, click the **Copy Line** icon.
2. At the bottom of the section, click the **Insert Copied Line** button.
3. In the **Dollar Amount** field, enter **2500**.
4. In the **Object Class** field, enter **6000**.
5. Click the **Smart Budget Rollup** button.
6. Click **Save**.

Budget FY	Fund	Department	Appr Unit	Division	Object Class	Dollar Amount	Increase/Decrease	Event Type		
2015	8000	107	1070000	107	7000	\$5,000.00	Increase	BG01		
2015	8000	107	1070000	107	6000	\$2,500.00	Increase	BG01		
From 1 to 2 Total: 2										
First Previous Next Last										

D. Review the rollup amounts in Level 1 of the budget document.

1. In the Document Navigation Panel, click **Dept Expense 93: Level 1**.
2. Observe the Dollar Amount for the line that has been created automatically in this section of the document is \$7,500; the sum of the three lines on Level 3 with the same Department, Appr Category, and Fund.

Dept Expense 93: Level 1 Total Lines: 1										
Budget FY	Fund	Department	Appr Unit	Division	Object Class	Dollar Amount	Increase/Decrease	Event Type		
2015	8000	107	1070000			\$7,500.00	Increase	BG01		
From 1 to 1 Total: 1										
First Previous Next Last										

E. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."
2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

4.4. Transfer Operating Budgets

When budget authority needs to be transferred from one budget line to another, a pair of balancing transfer in and transfer out lines must be created on a budget document. The event type entered on the budget line tells AFIS to perform a transfer. For the transfer out, the Line Action is Modify, and for the transfer in, the Line Action can be either New, which establishes a budget, or Modify, which modifies an existing budget. The Event Types are listed below:

- **Event Type BG07** – Transfer Out an Expense Budget
- **Event Type BG06** – Transfer In and Expense Budget

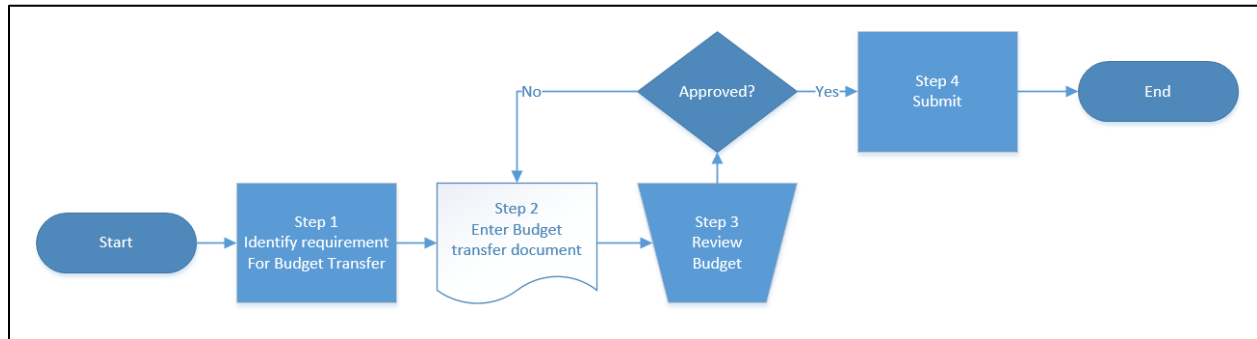

It is important to note that when budget amounts are transferred out, the Increase/Decrease field is set to **Increase** which will subtract the dollar amount entered from the specified budget line. When budget amounts are transferred in, the Increase/Decrease field is again set to **Increase** which will add the amount to the new or existing budget line.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-008 (Transfer Departmental Budgets) and represented by Figure 10 below.

1. Departments identify a need to transfer budget authority.
2. The department will load the budget document to transfer departmental budget authority. AFIS will enforce that the Transfer Out and Transfer In amounts match.
3. A department approver reviews and validates the transfer. If rejected, the document will route through workflow to step 2.
4. Transfer budget documents will be submitted and budget structure updated once departmental approver approves the budget documents.

Figure 10: Transfer Department Expense Budget (BC-TB-008)

ACTIVITY 4.4

Transfer an Operating Budget

Scenario

Your department needs to transfer an operating budget line based on the forecasted department requirements. You are responsible for creating the BGE93 document in AFIS to transfer the budget lines using budget structure 93 to record at the Object Class level; Level 3 in the budget structure.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGE93**.
 5. In the **Dept** field, enter the data from **your student data card**.
 6. Check the **Auto Numbering** check box.
 7. Click **Create**. The budget document opens.
- B. Complete the Dept Expense 93: Level 3 section.
 1. Click **Insert New Line**. The Action defaults to New.
 2. Change the **Action** to **Modify**.
 3. In the **Event Type** field, enter **BG07**, Transfer Out an Expense Budget.
 4. In the **Dollar Amount** field, enter **25000**.
 5. Observe the default Increase/Decrease action is **Increase**.
 6. In the **Fund** field, enter **8000**.
 7. In the **Dept** field, enter the data from **your student data card**.
 8. In the **Appr Unit** field, enter the data from **your student data card**.

9. In the **Division** field, enter the data from *your student data card*.
10. In the **Object Class** field, enter **7000**.
11. In the **Description** field, enter **Training budget**.
12. Click the **Smart Budget Rollup** button.
13. Click **Save**.

The screenshot displays the AFIS Budgetary Control interface. At the top, the header shows 'AFIS' and navigation links like 'Jump to: ESUM93L3', 'Go', 'Home', 'Personalize', 'Accessibility', 'App Help', and 'About'. Below this, a status bar indicates 'Welcome, Student 7' and 'Procurement Budgeting Accounts Receivable Accounts Payable'. The main section is titled 'Department Expense - Division(BGE93)' and shows 'Dept: 107 ID: 201500000006 Ver.: 1 Function: New Phase: Draft' and 'Modified by Student7, 04/04/2015'.

The 'Header' section lists several levels of expense with their respective total lines:

Header	Total Lines
Dept Expense 93: Level 1	1
Dept Expense 93: Level 1 Controls	0
Dept Expense 93: Level 2	1
Dept Expense 93: Level 2 Controls	0
Dept Expense 93: Level 3	1

The 'Dept Expense 93: Level 3' form is active, showing various fields for modification:

- Action:** Modify (dropdown)
- Event Type:** BG07 (dropdown)
- Name:** (text field)
- Start Date:** 07/01/2014 (calendar icon)
- End Date:** 06/30/2016 (calendar icon)
- Dollar Amount:** \$25,000.00 (text field)
- Increase/Decrease:** Increase (dropdown)
- Reservation Type:** (dropdown)
- Budget FY:** 2015 (text field)
- Fiscal Year:** 2015 (text field)
- Period:** 10 (text field)
- Fund:** 8000 (text field)
- Department:** 107 (dropdown)
- Appr Unit:** 1070000 (dropdown)
- Division:** 107 (dropdown)
- Object Class:** 7000 (dropdown)
- Contact:** (text field)
- Contact Name:** (text field)
- Description:** Training Budget (text field)

At the bottom, there are buttons for 'Save', 'Undo', 'Insert New Line', 'Insert Copied Line', 'Edit with Grid', 'Perform Budget Rollup', and 'Smart Budget Rollup'. A status bar at the very bottom shows 'Dept Expense 93: Level 3 Controls Total Lines: 0' and buttons for 'Copy', 'Validate', 'Submit', 'Discard', 'Print', 'Processing', 'Workflow', 'File', and 'Close'.

- C. Create the Transfer In budget line.
1. At the top of the section, click the **Copy Line** icon.
 2. At the bottom of the section, click the **Insert Copied Line** button.
 3. Change the **Action** to **New**.
 4. In the **Event Type** field, enter **BG06**, Transfer In an Expense Budget.
 5. In the **Dollar Amount** field, enter **25000**.
 6. In the **Appr Unit** field, enter **1000001**.
 7. In the **Division** field, enter the data from *your student data card*.
 8. In the **Object Class** field, enter **7000**.
 9. Click the **Smart Budget Rollup** button.

10. Click **Save**.

Dept Expense 93: Level 3 Total Lines: 2

E. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."
2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

4.5. Budget Query and Summary Tables

Budget Query Tables

Each budget level has a corresponding query page whose page code is determined by the structure number, and level, for example, BQ91LV3 for budget structure 91, level 3. Budget query pages list all budget lines that have been established for the budget structure and level that is indicated in the page caption on the query. The Chart of Accounts elements and name of each budget are displayed and

searchable. Budget query pages also display budget tracking amount fields associated with the selected budget as well as non-budgetary information that pertains to the selected budget.

For each standalone budget tracking amount field (those directly updated by accounting and budget documents) users can access field details and transaction details. The field details, accessed by clicking directly on the label for the bucket, show the actual bucket amount and totals for how much is pending for the bucket for both increases and decreases. The Magnifying Glass icon to the right of each bucket opens a window where transaction documents, which have updated the budget bucket, are listed. Each record has a link to allow the document to be opened. The Download link, found just below the grid of documents, will create an Excel file of all documents for the budget amount being investigated. That Excel file can then be saved locally with a name provided by the user. When the Detailed Transaction Listing window is closed, the user is returned to the transaction details.

For each calculated budget tracking amount field, users can access the formula, which drives the calculation.

The screenshot displays the AFIS Budgetary Control interface. The top navigation bar includes the AFIS logo, a 'Jump to' dropdown set to 'BQ91LV3', and links for Home, Personalize, Accessibility, App Help, and About. Below this is a secondary navigation bar with tabs for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. The main content area is titled 'Dept Expense 91: Level 3' and features a 'Menu Back' link. A table lists budget data with columns: BFY, Dept, Appr Cat, Fund, Appr Unit, Div, Bureau, Current Budget, Pre-Encumbered, Encumbered, Actual Expenses, Uncommitted, and Unobligated. The table contains five rows of data for the year 2015. Below the table are navigation links: First, Prev, Next, Last. A 'Search' section is present, followed by a 'Budget Actuals' section with various budget tracking fields and their values, each accompanied by a magnifying glass icon. At the bottom, there are links for 'Budgeted Amounts' and 'General Information', and a 'Top' link. The footer includes links for 'Modified Budget Line Controls', 'Previous Level', and 'Next Level'.

Modified Budget Line Controls Previous Level Next Level

Budget inquiry pages often have links at the bottom of the page which allow the following:

- **Previous Level** – Takes the key of the selected budget line and searches for its parent budget line at the next highest budget level
- **Next Level** – Takes the key of the selected budget line and searches for its children budget line(s) at the next lowest budget level

- **Modified Budget Line Controls** – Opens a page to display any system, budget level, or fund level budget constraints and guidelines modified for a budget line. If nothing is shown, the budget line uses controls set at these higher levels in compliance with the Inheritance Rules field on the Budget Structure table
- **Allotments** – Opens a page where any allotments defined for a budget line are listed. Many of the same buckets are displayed on a budget line are also displayed for allotments
- **Linked Revenues** – Opens a page that displays all linked revenue budget lines linked to an expense budget line
- **Supported Expense Budgets** – Opens a page that displays all linked expense budget lines linked to a revenue budget line

Budget Summary Query Tables

Each expense budget structure has at least one summary table available for queries. The lowest required level of an expense budget structure has a summary table. In addition, budget structure 95 has several summary tables for lower optional levels. Expense summary tables use the code structure ESUM##L# where the first number is the budget structure and the second number is the level that is summarized. For example, ESUM93L3 is the page code for Budget Structure 93 Level 3.

Summary pages include two grid sections that can be searched. The first grid presents summarized data for the BFY and COA values entered in the browse fields. In the absence of a wildcard or comma separated values, the first grid will have only one record. The second grid presents summarized data for the selected value in the Detail drop down field.

At the bottom of the summary page is a link that will take the user to the budget level being summarized while performing a search on that budget level for all records that match the COA of the record selected in the second grid.

ACTIVITY 4.5

Perform a Budget Query

Scenario

You want to look at the numbers for your department's budget using the query and summary pages.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- Review the expense budget summary page for Budget Structure 93 Level 3.
 - In the **Jump to** field, enter **ESUM93L3**.
 - Click **Go**. The Budget Structure 93 Level 3 ESUM page opens.
 - In the **Dept** field, enter the data from **your student data card**.
 - In the **Appr Unit** field, enter the data from **your student data card**.
 - In the **Fund** field, enter **8000**.
 - In the **Detail** drop down menu, select **Object Class**.
 - Click **Browse**.

BFY	Fund	Department	Appr Unit	Div	Obj Class	Current Budget	Pre-Encumbered	Encumbered	Actual Expenses	Uncommitted	Unobligated
2015	100					\$1,182,000.00	\$0.00	\$16,000.00	\$7,560.00	\$1,158,440.00	\$1,158,440.00
2015	101					\$1,242,500.00	\$0.00	\$16,000.00	\$7,060.00	\$1,219,440.00	\$1,219,440.00

2015	107					\$1,242,500.00	\$0.00	\$17,000.00	\$7,060.00	\$1,218,440.00	\$1,218,440.00
2015	108					\$1,242,500.00	\$0.00	\$17,000.00	\$12,530.00	\$1,212,970.00	\$1,212,970.00
2015	109					\$1,242,500.00	\$0.00	\$17,000.00	\$7,060.00	\$1,218,440.00	\$1,218,440.00

- Observe the records returned in two grids at the bottom of the page.
- Click **Home** to return to the Home Page.

Lesson Summary

In this lesson, you:

- Identified the available department operating budget structures
- Established a departmental operating budget
- Amended a departmental operating budget
- Transferred a departmental operating budget
- Researched a department operating budget structure

Check Your Progress

1. All of the following are departmental budget structures except
 - a. Bureau
 - b. Unit
 - c. Balance Sheet Account
 - d. Division
2. When modifying a budget line the Line Amount entered overwrites the previous budget line amount.
 - a. True
 - b. False
3. When performing a budget transfer, Transfer Out uses a(n) _____ action and Transfer In uses a(n) _____ action.
 - a. Increase...Decrease
 - b. Decrease...Decrease
 - c. Decrease...Increase
 - d. Increase...Increase

5. Revenue Budgets

Learning Objectives

In this lesson, you will:

- Establish a departmental revenue budget
- Amend a departmental revenue budget
- Identify the query pages used to research revenue budgets

Lesson Overview

Revenue budgets are maintained for cash flow tracking and budget reporting purposes. Arizona will not be establishing centralized revenue budgets for tracking and reporting, departments will create their own revenue budgets. This lesson reviews the process for establishing and amending revenue budgets for a department.

5.1. Establish Decentralized Revenue Budgets

Departmental revenue budgets are recorded using Budget Structure 94, which has three levels of detail. Only the first level is required when creating budget lines and only level 1 has an Allotments section which is optional for Departments. The document used to create and modify budget lines in Budget Structure 94 is the BGR94. There are no constraints in place for revenue budgets, there are no limits placed on revenue.

Budget Structure 94

LV1	Fund	Department	Revenue Class		
LV2	Fund	Department	Revenue Class	Revenue Src	
LV3	Fund	Department	Revenue Class	Revenue Src	Department Revenue Source

The valid event types on the BGR94 document are listed in Table 7 below:

Table 7: Revenue Budget Structure Event Types

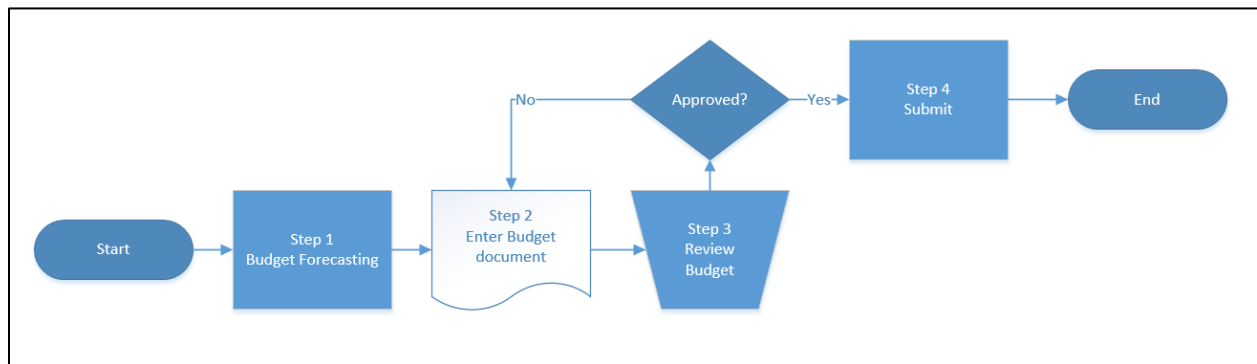

Event Type	Name
BG08	Deactivate Budget Line
BG09	Activate Budget Line
BG10	Delete Budget Line
BG21	Estimate Expected Revenue
BG23	Adopt a Revenue Budget
BG25	Amend a Revenue Budget
BG28	Transfer a Revenue Budget

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-009 (Create Revenue Budgets) and represented by Figure 11 below.

1. Departments will forecast for departmental revenue outlook.
2. Departments will create revenue budget in AFIS based on forecasted budget. Departments will validate for funding source and revenue source.
3. A department approver reviews and validates the department's revenue forecasts. If the document is rejected, the budget document will return through workflow to Step 3.
4. If approved, the departmental budget document will be submitted and budget structure updated.

Figure 11: Create Revenue Budgets (BC-TB-009)

ACTIVITY 5.1

Create a Revenue Budget

Scenario

Your department is ready to establish its revenue budget based on the forecasted department requirements. You are responsible for creating the BGR94 document in AFIS to establish the budget lines using budget structure 94 to record at the Department Revenue Source level; Level 3 in the budget structure.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGR94**.
 5. In the **Dept** field, enter the data from *your student data card*.
 6. Check the **Auto Numbering** check box.
 7. Click **Create**. The Department Revenue budget document opens.

Dept Revenue 94: Level 3 Controls	Total Lines: 0

Copy Validate Submit Discard Print Processing Workflow File Close

- B. Complete the Dept Revenue 94: Level 3 section.
 1. Click **Insert New Line**. The Action defaults to New.
 2. In the **Event Type** field, enter **BG23**, Adopt a Revenue Budget.
 3. In the **Dollar Amount** field, enter **25000**.
 4. Observe the default Increase/Decrease action is **Increase**.
 5. In the **Fund** field, enter **1000**.
 6. In the **Department** field, enter the data from *your student data card*.
 7. In the **Revenue Class** field, enter **4600**.
 8. In the **Revenue** field, enter **4632**.
 9. In the **Dept Rev** field, enter **4632PP**.
 10. In the **Description** field, enter **Training revenue budget**.

11. Click the **Smart Budget Rollup** button.
12. Click **Save**.

The screenshot shows the AFIS Budgetary Control interface. At the top, there's a navigation bar with 'AFIS' logo and various utility links. Below it, a header bar displays 'Welcome, Student 7' and navigation tabs for 'Procurement', 'Budgeting', 'Accounts Receivable', and 'Accounts Payable'. The main content area is titled 'Dept Rev - Dept Rev Source(BGR94)' and shows a list of budget lines. The selected line is 'Dept Revenue 94: Level 3' with 'Total Lines: 1'. The form for this line is displayed, showing fields for 'Action' (New), 'Event Type' (BG23), 'Name', 'Start Date', 'End Date', 'Dollar Amount' (\$25,000.00), 'Increase/Decrease' (Increase), 'Budget FY' (2015), 'Fiscal Year' (2015), 'Period' (10), 'Fund' (1000), 'Department' (107), 'Revenue Class' (4600), 'Revenue' (4632), 'Dept Rev' (4632PP), 'Contact', and 'Contact Name'. The 'Description' field contains 'Training revenue budget'. At the bottom of the form, there are buttons for 'Save', 'Undo', 'Insert New Line', 'Insert Copied Line', 'Edit with Grid', 'Perform Budget Rollup', and 'Smart Budget Rollup'. The status bar at the very bottom indicates 'Dept Revenue 94: Level 3 Controls' and 'Total Lines: 0'.

C. Create the rest of the revenue budget lines.

1. At the top of the section, click the **Copy Line** icon.
2. At the bottom of the section, click the **Insert Copied Line** button.
3. In the **Dollar Amount** field, enter **32000**.
4. In the **Fund** field, enter **1000**.
5. In the **Dept Rev** field, enter **4632IG**.
6. Click the **Smart Budget Rollup** button.
7. Click **Save**.

This screenshot shows the same AFIS Budgetary Control interface as the previous one, but after creating a second budget line. The 'Dept Revenue 94: Level 3' form is still visible, and the 'Total Lines' at the bottom of the form has increased from 0 to 2. The 'Smart Budget Rollup' button is still present at the bottom right of the form area.

E. Complete the Allotments section.

1. Click **Insert New Line** 12 times to add 12 blank lines.
2. In the first line, click the cell under Period.
3. In the **Period** field, enter **1** and press **tab**.
4. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
5. In the second row, **Period** field, enter **2**, and press **tab**.
6. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
7. In the third row, **Period** field, enter **3**, and press **tab**.
8. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
9. In the fourth row, **Period** field, enter **4**, and press **tab**.
10. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
11. In the Fifth row, **Period** field, enter **5** and press **tab**.
12. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
13. In the sixth row, **Period** field, enter **6** and press **tab**.
14. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
15. In the seventh row, **Period** field, enter **7** and press **tab**.
16. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
17. In the eighth row, **Period** field, enter **8** and press **tab**.
18. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
19. In the ninth row, **Period** field, enter **9** and press **tab**.
20. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
21. In the tenth row, **Period** field, enter **10** and press **tab**.
22. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
23. In the eleventh row, **Period** field, enter **11** and press **tab**.
24. The **Allotment Amount** field is selected. Enter **2,000**, press **tab** 3 times.
25. In the twelfth row, **Period** field, enter **12** and press **tab**.
26. The **Allotment Amount** field is selected. Enter **3,000**, press **tab** 3 times.

D. Review the rollup amounts in Level 1 of the revenue budget document.

1. In the Document Navigation Panel, click **Dept Revenue 94: Level 1**.
2. Observe the Dollar Amount for the line that has been created automatically in this section of the document is \$57,000; the sum of the two lines on Level 3 with the same Fund, Department, and Revenue Class.

Header							
Dept Revenue 94: Level 1				Total Lines: 1			
Budget FY	Fund	Department	Revenue Class	Dollar Amount	Increase/Decrease	Event Type	
2015	1000	107	4600	\$57,000.00	Increase	BG23	
From 1 to 1 Total: 1				First	Previous	Next	Last

E. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."

2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

5.2. Amend Decentralized Revenue Budgets

When departments need to increase or decrease their revenue budget based on updated forecasts, amendments are created using the same document used to create the budget lines, the BGR94. On the document budget lines, the Line Action is changed to Modify and the event type selected is BG25, Amend a Revenue Budget.

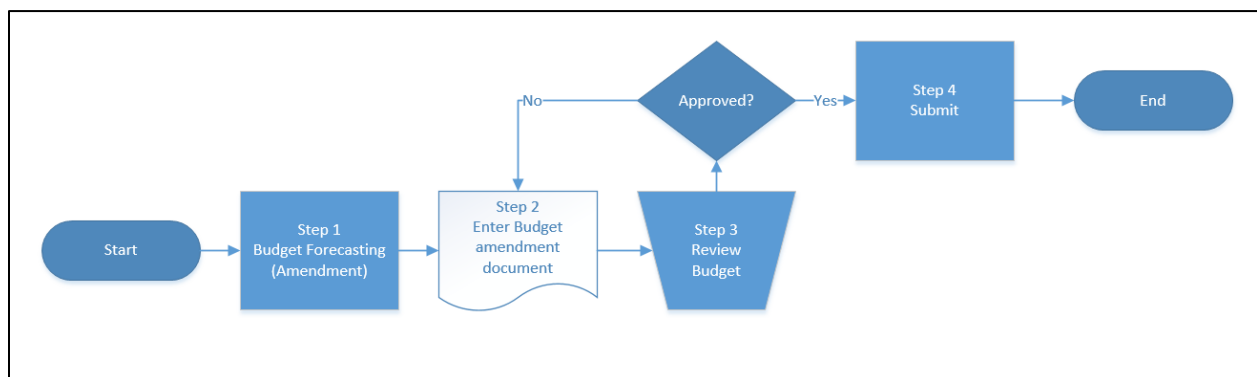

When a budget line is amended, the Increase/Decrease field needs to be set so that the dollar amount entered is either added to or subtracted from the current budget amount. This value represents the change in budget amount and is different than accounting documents where a new value is entered.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-010 (Amend Revenue Budgets) and represented by Figure 12 below.

1. Departments will determine a need to amend revenue budgets.
2. The department will enter the amendment data based on forecasted budget. Departments will validate for funding source and revenue source.
3. A department approver reviews and validates department's revenue forecasts. If rejected, the budget documents will return through workflow to Step 2.
4. If approved, the amended budget document will be submitted and the budget structure updated.

Figure 12: Amend Revenue Budgets (BC-TB-010)

5.3. Revenue Budget Query and Summary Tables

There are three levels in Budget Structure 94, each level has its own query page used to view balance information for each established revenue budget line. The revenue budget query pages are:

- BQ94LV1
- BQ94LV2
- BQ94LV3

There are two summary tables available for budget structure 94. The revenue budget summary tables are:

- RSUM94L1
- RSUM94L3

Lesson Summary

In this lesson, you:

- Established a departmental revenue budget
- Amended a departmental revenue budget
- Identified the query pages used to research revenue budgets

Check Your Progress

1. The State of Arizona limits revenue to a pre-determined amount.

- a. True
- b. False

All budget documents are processed to final upon submission.

- c. True
- d. False

2. One available summary table for Budget Structure 94 is:

- a. RSUM94L1
- b. RSUM94L2
- c. RSUM93L3
- d. RSUM94L4

6. Cost Structure Expenditure Budgets

Learning Objectives

In this lesson, you will:

- Establish a cost structure expenditure budget
- Amend a cost structure expenditure budget
- Transfer a cost structure expenditure budget
- Identify the query pages used to research cost structure budgets

Lesson Overview

Cost Structure budgets are used to define a budget for a particular project or grant based on a forecasted timeline that relies on either the Phase or the Period. Cost Structure budgets operate in pairs that utilize an expenditure structure and a reimbursement structure. This lesson reviews the process of establishing, amending, and transferring Cost Structure expenditure budgets in AFIS.

6.1. Establish Cost Structure Expenditure Budgets

Cost Structure expenditure budgets allow for the tracking of both revenue and expenses associated with a project or grant while reimbursement budgets allow for the tracking of any matched or reimbursed funds associated with the spending on a project. For each structure, one document code is used to create, amend, and transfer budget amounts.

The Program Phase Cost Structure consists of the following structure and associated document:

- **Structure 37** – BGPHE document, Program Phase Budget

The Program Period Cost Structure consists of the following structure:

- **Structure 38** – BGPDE document, Program Period Budget

The expenditure cost structures, 37 and 38, have 3 levels each, all of which are required for validation.

Cost Structure 37

LV1	Dept	Mjr Prog		
LV2	Dept	Mjr Prog	Prog	
LV3	Dept	Mjr Prog	Prog	Phase

Cost Structure 38

LV1	Dept	Mjr Prog		
LV2	Dept	Mjr Prog	Prog	
LV3	Dept	Mjr Prog	Prog	Prog Period

The valid event types on the BGPHE and BGPDE documents are listed in Table 8 below:

Table 8: Cost Structure Event Types

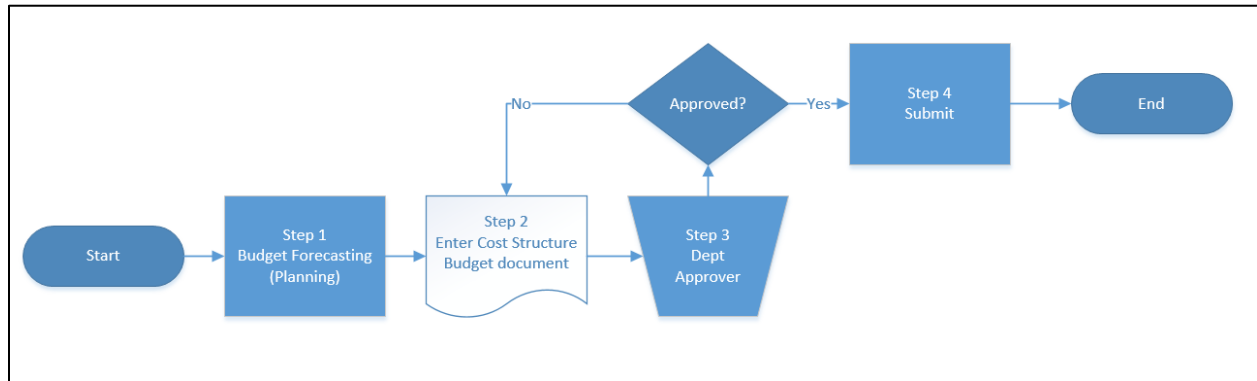

Event Type	Name
BG01	Adopt an Expense Budget
BG03	Amend an Expense Budget
BG06	Transfer In an Expense Budget
BG07	Transfer Out an Expense Budget
BG08	Deactivate Budget Line
BG09	Activate Budget Line
BG10	Delete Budget Line
BG21	Estimate Expected Revenue
BG22	Award Reimbursable Budget

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-011 (Create Cost Structure Expenditure Budgets) and represented by Figure 13 below.

1. Departments will forecast for cost structure budget requirements.
2. Departments will enter the cost structure budget data based on forecasted amount.
Departments will validate funding sources and the cost structure Chart of Accounts.
3. A department approver will review and validate the cost structure budget. If rejected, the budget documents will return through workflow to Step 2.
4. If approved, the cost structure budget document will be submitted and the budget structure updated.

Figure 13: Create Cost Structure Expenditure Budgets (BC-TB-011)

ACTIVITY 6.1

Create a Cost Structure Expenditure Budget

Scenario

Your department is ready to establish a Cost Structure expenditure budget based on the forecasted department requirements. You are responsible for creating the BGPDE document in AFIS to establish the budget lines using budget structure 38 to record at the Program Period level; Level 3 in the budget structure.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGPDE**.
 5. In the **Dept** field, enter the data from **your student data card**.
 6. Check the **Auto Numbering** check box.

7. Click **Create**. The budget document opens.

6. In the Document Navigation Panel, click **Program Period Budget**.

- C. Complete the Program Period Budget section.

1. Click **Insert New Line**. The Action defaults to New.
2. In the **Event Type** field, enter **BG01**, Adopt an Expense Budget.
3. In the **Dollar Amount** field, enter **4000**.
4. Observe the default Increase/Decrease action is **Increase**.

5. In the **Department** field, enter the data from *your student data card*.
6. In the **Major Program** field, enter the data from *your student data card*.
7. In the **Program** field, enter the data from *your student data card*.
8. In the **Program Period** field, enter the data from *your student data card*.
9. In the **Description** field, enter *Training project budget*.
10. Click the **Smart Budget Rollup** button.
11. Click **Save**.

The screenshot displays the AFIS Budgetary Control interface. At the top, the header includes the AFIS logo, a user welcome message 'Welcome, Student 7', and navigation links for Procurement, Budgeting, Accounts Receivable, and Accounts Payable. Below the header, a status bar shows 'Grant Budget(BGPDE)', 'Dept: 107', 'ID: 20150000013', 'Ver.: 1', 'Function: New', 'Phase: Draft', and 'Modified by Student7, 04/04/2015'.

The main content area is divided into two sections. The top section, titled 'Header', contains a table with the following data:

Header	Total Lines:
Major Program Budget	1
Major Program Budget Controls	0
Program Budget	1
Program Budget Controls	0
Program Period Budget	1

The bottom section, titled 'Program Period Budget', contains a form with the following fields:

- Action: New (dropdown)
- Event Type: BG01 (dropdown)
- Name: (text field)
- Start Date: 07/01/2014 (calendar icon)
- End Date: 06/30/2016 (calendar icon)
- Dollar Amount: \$4,000.00 (text field)
- Increase/Decrease: Increase (dropdown)
- Reservation Type: (dropdown)
- Fiscal Year: 2015 (text field)
- Period: 10 (text field)
- Department: 107 (dropdown)
- Major Program: BUDGET (dropdown)
- Program: BUDGET1 (dropdown)
- Program Period: PPC01 (dropdown)
- Contact: (text field)
- Contact Name: (text field)
- Description: Training project budget (text field)

At the bottom of the form, there are buttons for 'Save', 'Undo', 'Insert New Line', 'Insert Copied Line', 'Edit with Grid', 'Perform Budget Rollup', and 'Smart Budget Rollup'. Below these buttons, a section titled 'Period Budget Controls' shows 'Total Lines: 0'. At the very bottom, there are buttons for 'Copy', 'Validate', 'Submit', 'Discard', 'Print', 'Processing', 'Workflow', 'File', and 'Close'.

D. Validate and submit the document.

1. Click the **Validate** button to check for errors. If any errors exist, correct the errors then click the **Validate** button again. If the validation is successful, the following message is displayed in the upper left corner of the screen: "Document validated successfully."
2. Click the **Submit** button to submit the document to workflow for approval.
3. Click **Home** to return to the Home Page.

6.2. Amend Cost Structure Expenditure Budgets

Departments may need to amend Cost Structure expenditure budgets based on updates and changes to forecast data. Modification, or amendment, of a cost structure expenditure budget requires the creation and submission of the same budget document type that was used to create the budget line. For example, if the department uses budget structure 37 then the document used to create the budget line

is the BGPHE. On the document budget lines, the Line Action is changed to Modify and the event type selected is BG03, Amend an Expense Budget.

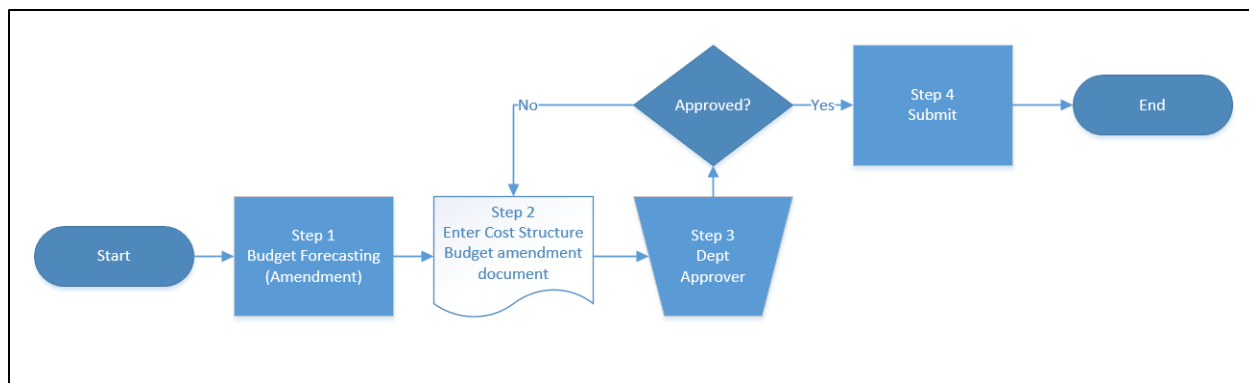

When a budget line is amended, the Increase/Decrease field needs to be set so that the dollar amount entered is either added to or subtracted from the current budget amount. This value represents the change in budget amount and is different than accounting documents where a new value is entered.

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-012 (Amend/Transfer Cost Structure Expenditure Budgets) and represented by Figure 14 below.

1. Departments will forecast for cost structure budget amendments.
2. Departments will enter the cost structure budget amendment based on forecasted amount. Departments will validate funding sources and the cost structure Chart of Accounts.
3. A department approver will review and validate the cost structure budget amendment. If rejected, the budget documents will return through workflow to Step 2.
4. If approved, the amendment document will be submitted and the budget structure updated.

Figure 14: Amend/Transfer Cost Structure Expenditure Budgets (BC-TB-012)

6.3. Transfer Cost Structure Expenditure Budgets

When budget authority needs to be transferred from one budget line to another, a pair of balancing transfer in and transfer out lines must be created on a budget document. The event type entered on the budget line tells AFIS to perform a transfer. For the transfer out, the Line Action is Modify, and for the transfer in, the Line Action can be either New, which establishes a budget, or Modify, which modifies an existing budget. The Event Types are listed below:

- **Event Type BG07** – Transfer Out an Expense Budget
- **Event Type BG06** – Transfer In and Expense Budget

It is important to note that when budget amounts are transferred out, the Increase/Decrease field is set to **Increase** which will subtract the dollar amount entered from the specified budget line. When budget amounts are transferred in, the Increase/Decrease field is again set to **Increase** which will add the amount to the new or existing budget line.

6.4. Cost Structure Budget Query Tables

There are three levels in Budget Structure 37 and 38, each level has its own query page used to view balance information for each established cost structure budget line. The cost structure budget query pages are:

- BQ37LV1
- BQ37LV2
- BQ37LV3
- BQ38LV1
- BQ38LV2
- BQ38LV3

There are no Summary Query tables for Cost Structures.

Lesson Summary

In this lesson, you:

- Established a cost structure expenditure budget
- Amended a cost structure expenditure budget
- Transferred a cost structure expenditure budget
- Identified the query pages used to research cost structure budgets

Check Your Progress

1. Cost structure expenditure budgets are used to track expenses and revenue for a department by fiscal year.
 - a. True
 - b. False

2. The following budget structure is a valid pair of cost structures:
 - a. Cost Structure 37 and 38
 - b. Cost Structure 37 and 39
 - c. Cost Structure 37 and 40
 - d. Cost Structure 38 and 40

3. The Summary query tables for cost structures are available at:
 - a. Level 1
 - b. Level 2
 - c. Level 3
 - d. None of the above

7. Grant Reimbursement Budgets

Learning Objectives

In this lesson, you will:

- Establish a grant funding reimbursement budget
- Amend a grant funding reimbursement budget
- Transfer a grant funding reimbursement budget
- Identify the query pages used to research grant reimbursement budgets

Lesson Overview

Cost Structure budgets for Grant Reimbursement are used to define a budget for a particular project based on a forecasted timeline that relies on either the Phase or the Period. Grant Funding budgets operate in pairs that utilize an expenditure structure and a reimbursement structure. This lesson reviews the process of establishing, amending, and transferring Grant Funding Reimbursement budgets in AFIS.

7.1. Establish Grant Funding Reimbursement Budgets

Cost Structure budgets allow for the tracking of both revenue and expenses associated with a project while reimbursement budgets allow for the tracking of any matched or reimbursed funds associated with the spending on a project. For each structure, one document code is used to create, amend, and transfer budget amounts.

The Program Phase Cost Structure consists of the following structure and associated document:

- **Structure 40** – BGPHR document, Program Phase Reimbursable Plan Budget

The Program Period Cost Structure consists of the following structure:

- **Structure 39** – BGPDR document, Program Period Reimbursable Budget

The reimbursement cost structures, 39 and 40, have 2 levels each, both of which are required for validation.

Cost Structure 39

LV1	Dept	Mjr Prog	Prog	Prog Period	Fund Profile	Fund Priority	
LV2	Dept	Mjr Prog	Prog	Prog Period	Fund Profile	Fund Priority	Fund Line

Cost Structure 40

LV1	Dept	Mjr Prog	Prog	Phase	Fund Profile	Fund Priority	
LV2	Dept	Mjr Prog	Prog	Phase	Fund Profile	Fund Priority	Fund Line

The default event type for a Reimbursement budget line is BG22, Award Reimbursable Budget. The valid event types on the BGPGR and BGPDR documents are listed in Table 9 below:

Table 9: Grant Funding Reimbursable Budget Structure Event Types

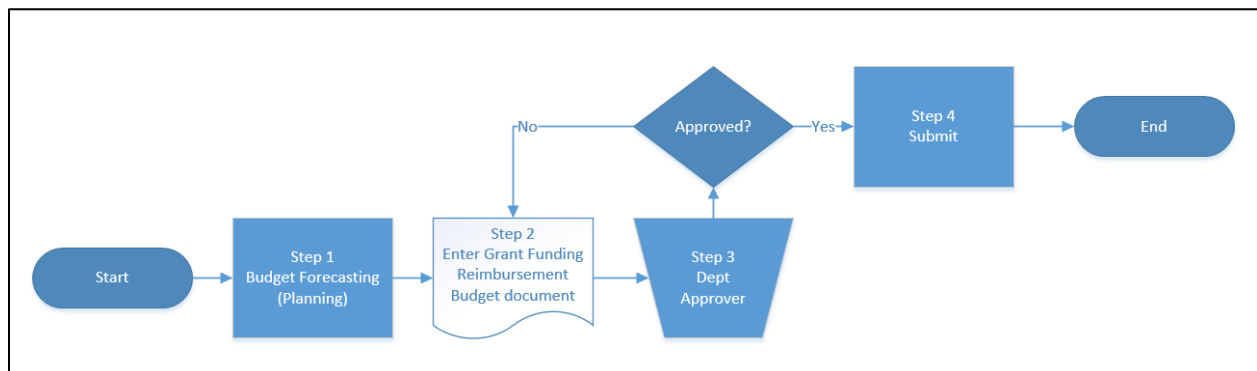

Event Type	Name
BG22	Award Reimbursable Budget

State Process Overview

The steps below describe the statewide process. Your agency may have additional requirements. This process is referenced in To Be ID BC-TB-013 (Create Grant Funding Reimbursement Budgets) and represented by Figure 15 below.

1. Departments will forecast for grant reimbursement budget requirements.
2. Departments will enter the grant reimbursement budget data based on forecasted amount. Departments will validate funding sources and the grant structure Chart of Accounts
3. A department approver will review and validate the grant reimbursement budget. If rejected, the budget documents will return through workflow to Step 2.
4. If approved, the grant reimbursement budget document will be submitted and the budget structure updated.

Figure 15: Create Grant Funding Reimbursement Budgets (BC-TB-013)

ACTIVITY 7.1

Create a Grant Reimbursement Budget

Scenario

Your department is ready to establish a Grant Reimbursement budget based on the forecasted department requirements. You are responsible for creating the BGPDR document in AFIS to establish the budget lines using budget structure 39 to record at the Program Period level; Level 2 in the budget structure.

Setup

- ✓ User is logged into the AFIS Home Page.

Steps

- A. Navigate to the Document Catalog.
 1. In the Secondary Navigation Panel, click **Search**.
 2. Click **Document Catalog**.
 3. Click **Create**.
 4. In the **Code** field, enter **BGPDR**.
 5. In the **Dept** field, enter the data from *your student data card*.
 6. Check the **Auto Numbering** check box.
 7. Click **Create**. The budget document opens.

B. Complete the Header section of the Grant Reimbursement budget document.

1. In the **Start Date** field, enter the data from *your student data card*.
2. In the **End Date** field, enter the data from *your student data card*.
3. In the **Transaction Date** field, enter *today's date*, or leave blank for default.
4. In the **Fiscal Year** field, enter the *current FY*, or leave blank for default.
5. In the **Period** field, enter the *current period*, or leave blank for default.

The screenshot shows a window titled "Header" with a light blue background. It contains several input fields and read-only text. The input fields are: "Start Date" with the value "07/01/2014", "End Date" with the value "06/30/2016", "Transaction Date" (empty), "Fiscal Year" (empty), and "Period" (empty). Each date field has a small calendar icon to its right. Below these are four read-only fields: "Created On: 04/05/2015", "Created By: Student7", "Modified On: 04/05/2015", and "Modified By: Student7".

6. In the Document Navigation Panel, click **Program Period Budget**.

C. Complete the Program Period Budget section.

1. Click **Insert New Line**. The Action defaults to New.
2. In the **Event Type** field, enter **BG22**, Award Reimbursable Budget.
3. In the **Dollar Amount** field, enter **3600**.
4. Observe the default Increase/Decrease action is **Increase**.
5. In the **Department** field, enter the data from *your student data card*.
6. In the **Major Program** field, enter the data from *your student data card*.
7. In the **Program** field, enter the data from *your student data card*.
8. In the **Program Period** field, enter the data from *your student data card*.
9. In the **Funding Profile** field, enter the data from *your student data card*.
10. In the **Funding Priority** field, enter the data from *your student data card*.
11. In the **Funding Line** field, enter the data from *your student data card*.
12. In the **Description** field, enter **Training project budget**.
13. Click the **Smart Budget Rollup** button.

14. Click **Save**.

D. Create the rest of the budget lines.

1. At the top of the section, click the **Copy Line** icon.
2. At the bottom of the section, click the **Insert Copied Line** button.

Department	Major Program	Program	Program Period	Funding Profile	Funding Priority	Funding Line	Dollar Amount	Increase/Decrease	Event Type
107	BUDGET	BUDGET1	PPC01	BUDGET	10	1	\$3,600.00	Increase	BG22
107	BUDGET	BUDGET1	PPC01	BUDGET	10	1	\$3,600.00	Increase	BG22

3. In the **Dollar Amount** field, enter **400**.
4. In the **Program Period** field, enter the data from *your student data card*.
5. In the **Funding Profile** field, enter the data from *your student data card*.
6. In the **Funding Priority** field, enter the data from *your student data card*.
7. In the **Funding Line** field, enter the data from *your student data card*.

8. Click the **Smart Budget Rollup** button.
9. Click **Save**.

 - d. Three required, no optional

8. Budgetary Control Reporting

Learning Objectives

In this lesson, you will:

- Review reports available in Budgetary Control

Lesson Overview

AFIS includes several reports for monitoring Budgetary Control.

8.1. Reports

The key reports needed to support the AFIS Budgetary Control business processes are listed below.

- **FIN-AZ-BG-N118** - Department Budget by Division, District, Bureau, Section and Unit - Agency Budget #95
- **FIN-AZ-BG-N139** - Administrative Adjustment for Fiscal Year - Report lists Administrative Adjustment activity for Fiscal Year. Report is cumulative through APD
- **FIN-AZ-BG-N140** - Budget Activity by OSPB - Master List Budget Activity for OSPB based on task and subtask
- **FIN-AZ-BG-N141** - Status of Appropriations - Summarized Status of Appropriations by Object Class
- **FIN-AZ-BG-N143** - Current Allotment Totals by BFY - This report provides adopted and current allotment amounts by BFY and Department
- **FIN-AZ-BG-N144** - Appropriation Budget Quarterly Allotment vs. Actual Expense - Appropriation Budget Quarterly Allotment vs. Actual Expense
- **FIN-AZ-BG-N145** - Department Budget vs. Actuals by Division - Revenue and Expenditures by Division, Agency Budget #93
- **FIN-AZ-BG-N146** - Department Budget vs. Actuals by Division and Bureau - Revenue and Expenditures by Division and Bureau, Agency Budget #91
- **FIN-AZ-CA-N147** - Department Budget Control by Program, Division & Unit - Program Budget Expenditure and charges listing by Division and Unit
- **FIN-AZ-BG-N149** - Appropriation budget status excluding pre-encumbrances - Appr Budget Status with Revenues and Expenditures. Pre-Encumbrance displayed but not included in remaining budget balance
- **FIN-AZ-BG-N197** - Department Budget vs. Actuals by Division and District - Revenue and Expenditures by Division and District, Agency Budget #92

Lesson Summary

In this lesson, you:

- Reviewed reports for Budgetary Control

Appendix

ANSWER KEYS

Below are answer keys to the Check Your Progress quizzes provided at the end of each lesson.

Lesson 2

1. b. False (Section 2.2)
2. e. None of the Above (Section 2.3)
3. b. False (Section 2.5)

Lesson 3

1. a. True (Section 3.1)
2. c. New (Section 3.1)
3. a. True (Section 3.4)
4. d. Both b and c (Section 3.5)

Lesson 4

1. c. Balance Sheet Account (Section 4.1)
2. b. False (Section 4.4)
3. d. Increase...Increase (Section 4.5)

Lesson 5

1. b. False (Section 5)
2. b. False (Section 5.1)
3. a. RSUM94L1 (Section 5.3)

Lesson 6

1. b. False (Section 6.1)
2. c. Cost Structure 37 and 40
3. d. None of the above (Section 6.4)

Lesson 7

1. d. Both a and b (Section 7.1)
2. c. Two required, no optional (Section 7.1)
